XII. ADJOURNMENT

Attachments: Management Report, Management Update,

Board of Directors Champaign County Nursing Home Urbana, Illinois February 13, 2012

Directors Present: O'Shaughnessey, Hambrick, Anderson, Czajkowski, Hambrick, Palinkas

Directors Absent/Excused: Emanuel

Also Present: Busey, Scavotto, Schuette

1. Call to Order

The meeting was called to order at 6:00 pm by Chair O'Shaughnessey

2. Roll Call

Busey called the roll of Directors. A quorum was established.

3. Agenda & Addendum

The agenda was approved (motion Palinkas, second Anderson, unanimous).

4. Approval of Minutes

The open session minutes of January 9, 2012 were approved as submitted (motion Palinkas, second Anderson, unanimous). The closed session minutes were approved as submitted (motion Anderson, second Palinkas, unanimous).

5. Public Participation

There was no public participation.

6. Old Business

There was no old business.

7. New Business

a. IDPH Report

Schuette reported on the recent IDPH surveys:

1. **Annual Licensing Survey:** IDPH issued 14 citations. CCNH's Plan of Correction was submitted on December 31, 2011 and accepted on January 2, 2012. Among

the IDPH findings, investigation reports should be more thorough. The abuse policy needed improvement, specifically in that abuse allegations must be reported directly to the administrator. Changes to the policy have been made and accepted; in-house training has been completed. Documentation for antibiotic administration needed strengthening as did security over Schedule 2 drugs. Activities had an issue with functions being sensitive to resident needs and functional status; Dietary had citations regarding cleaning of steam tables and portion control. All citations have been remedied and CCNH awaits reinspection.

2. **Life Safety Survey:** The LSS was completed on February 9 and 13 citations were issued. Several sprinkler heads will need to be extended and one must be added in a telephone closet. Most of the citations can be fixed quickly; management will get the sprinkler problems fixed as quickly as possible to avoid leaving the LSS window open past April 1. (The Annual Licensing Survey closure date is April 13.)

Schuette reviewed the customer satisfaction scores and the lack of progress in the areas of Communication and Response to Problems. More management development will be Undertaken with the goal of establishing trust at all levels of the CCNH workforce. There was extended discussion on this point and it was clear that making further progress in improving customer service and clinical quality would be dependent upon establishing a different culture at CCNH.

b. Management Report: Operations and Financial Position

Scavotto reviewed the essential dimensions of the Deficit Reduction Act, under which CCNH is now operating. CCNH will be making more rigorous asset checks prior to direct Medicaid admissions. The anticipated complications from DRA will come from Pvt Pay residents who spend-down to Medicaid status or who are admitted as Medicare and then convert to Medicaid. There were 62 cases last year of such spend-down status. CCNH will be making stronger collection efforts but the realistic expectation is for higher bad debts.

Corporate compliance is now mandated in skilled nursing facilities with March 2013 as the date for having a compliance program in place. MPA is working on a shared approach to compliance that provides a cost-effective way of implementing compliance programs. The regulatory environment has become much more complex and is expected to worsen. It is not at all clear that a single institution can keep up with the myriad number of regulations and related compliance activities. MPA's program concentrates HIPAA, HiTech, resident privacy issues, Medicare billing integrity, and care planning. More on this program will be presented in future months.

December operations were profitable with a gain of \$25k. January revenues are expected to be \$1.266 million, which bodes well for January's results.

Census for January 2012 was 197.6. The mix for the last two months has been excellent with Pvt Pay coming in very strong. Medicare volume still needs improvement:

	Dec 11	Jan 12
Medicaid	53%	53.1%
Pvt Pay	38%	37.8%
Medicare A	9%	9.2%

Medicare Advantage plans are exerting new pressures to reduce length of stay. CCNH has no difficulties with that objective. There are issues with establishing proper measures of performance that correctly reflect the responsibilities of each party.

CCNH's cash position is better, albeit temporary. Medicaid payments delays are expected to resume in August or September, and the delays may be considerably longer that this year's 120 days. Fortunately, CCNH has been able to secure working capital from a local bank and continues to discuss such financing with others. The immediate goal is to secure written commitments from lenders to support CCNH by purchasing Champaign County RANs.

8. Other Business

County Board Member Alan Bensyl will replace Alan Nudo as a CCNH Director. Mr. Bensyl will be appointed at the next meeting of the County Board and will serve through November 2012.

9. Next Meeting Date

Monday March 12, 2012, 6 pm.

10. Adjournment

Chair O'Shaughnessey declared meeting adjourned at 6:50 pm.

Respectfully submitted

Michael A. Scavotto Recording Secretary To:

Board of Directors

Champaign County Nursing Home

From:

M.A. Scavotto

Manager

March 5, 2012

Re:

Management Report

January's census came in at 197.8.

Here's what's happened on admissions and discharges.

	Sept	Oct	Nov	Dec	Jan 2012
Adm its					
Pvt	9	9	8	8	5
Pay/Insurance					
Medicare A	9	7	12	13	10
Medicaid		2	ı	2	1
Total	18	18	21	22	16
Discharges					
Pvt	10	l	5	5	6
Pay/Insurance					
Medicare A	5	6	6	9	5
Medicaid	1	2	1	I	ı
Total	16	9	12	15	12

January's payer mix was 38 percent Private Pay, 53 percent Medicaid, and 9 percent Medicare. CCNH trend of late has been 36 percent Private Pay, 53 percent Medicaid, and 11 percent Medicare. Medicare volume has remained down and has had continuing revenue implications.

January 2012 resulted in a gain of \$27k.

Noteworthy items for January include:

• Revenue was over budget by \$17k. Within this figure is a shortfall in Medicare A revenues, some \$(25)k under budget. This is the same variance that has plagued CCNH last fiscal year; for December and January, the Medicare A budget shortfall was small in comparison to some of the variances we witnessed last year. Pvt Pay revenues were over

budget by about \$6k while Medicaid was \$42k over budget. Pvt Pay is a very positive development; Medicaid is not as much over budget as prior months.

- Expenses were under budget by \$30k.
- Within non-labor expenses, Attorney Fees were over budget by \$4k; Professional Fees were \$6k over budget; utilities were \$5k over; Maintenance/Repair was \$8k over. In Nursing, expenses were \$11k under budget. Within Nursing, agency costs were \$52k, a fine result.

Take a look at the figures in bold type-face as they represent significant changes from prior months. (Figures will not add to 100 percent.) The obvious highlight is the change in Medicaid and Pvt Pay. Medicaid decreased markedly in November — about 10 percentage points — and has remained down. Pvt Pay was up to 35 percent on December and continued up in January. Medicare A is still not where we want it.

	Oct-	As Pct of Pt Revenue	Nov-	As Pct of Pt Revenue	Dec-	As Pct of Pt Revenue	Jan-12	As Pct of Pt Revenue
Medicare A	\$211k	19%	\$293k	24%	\$269k	22.5%	\$267k	22.6%
Medicaid	\$535k	48%	\$467k	38%	\$457k	38.2%	\$464k	39.3%
Pvt Pay	\$286k	26%	\$379k	30%	\$418k	35%	\$394k	33.4%

Misc Revenue and Property Taxes excluded from calculation

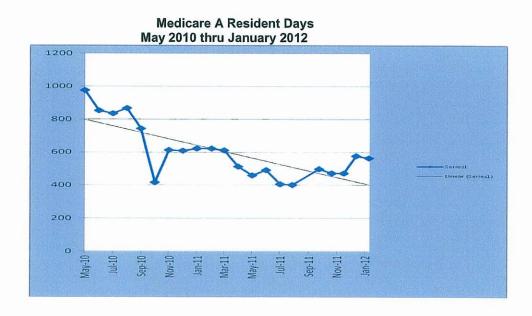

Expenses came in at \$1.24 million. Agency costs were \$52k in total, continuing a trend of reduced agency reliance. The trend for Contract Nursing Services is decidedly down, which is good. We experienced a few months where usage dropped precipitously, only to climb back to higher levels. Further below in this memo you will find a chart tracking agency usage.

Average daily census has stabilized at a higher level. For fiscal 2010, CCNH experience an ADC of 197; our target was 195. For Fiscal 2011, CCNH dipped to 193. That result is still better than recent history, but not where it should be. Fiscal 2012 is off to a good start but it's the same pattern as last year; where CCNH ran into trouble was in the 2nd and 3rd fiscal quarters when census, particularly Medicare A, tanked. You see this in the graph, below, where the purple bar (representing this current fiscal 2012) is quite a bit better than 2011.

ADC By Fiscal Year

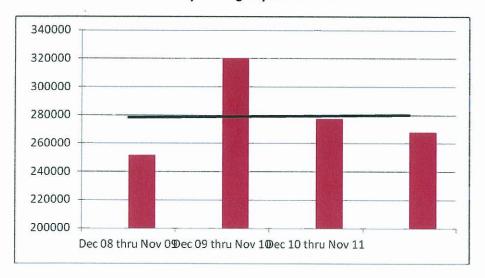

Medicare days were 564 in January for an ADC of 18.2 including the Medicare Advantage days, which do not pay on a par with traditional Medicare. Based on CCNH's recent experience, Medicare census has not been as strong as what we had built up last year. Here's the pattern for Medicare A since May of last year. This is a big change in a short period of time.

In November, Medicare revenues came close to reversing a 7-month period where Med A revenues were under \$300k. November posted \$292k in Med A revenues; December, sadly, dropped to \$269k. The per diem – at \$466 - was lower than expectations. January saw Medicare A revenues at \$267k with a per diem of \$473. As you can tell from the following graph, the Medicare trend line has gone flat.

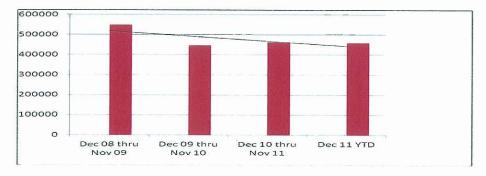

Medicare A Revenues
Monthly Average By Fiscal Year

Med B came in at \$32k, which is low.

Beginning in July 2011, Medicaid revenues exceeded \$500k per month for four consecutive months. That represented a major change in CCNH's pattern; since Oct 09 Medicaid revenues had consistently been under \$500k. December is the second straight month where Medicaid revenues were under \$500k. Consequently, CCNH's monthly average for Medicaid revenues has now edged higher than what it was for 2010:

Medicaid Revenues
Monthly Average By Fiscal Year

CCNH's payer mix continues to move in a direction that is, overall, positive. The developing trend with Medicaid is troubling as it represents continued financial stress. The following table provides the comparisons in this significant change

Comparative Payer Mix CCNH

	Dec-07 thru June 08	Dec-08 thru Jan-12
Medicaid	62%	52.4%
Medicare	9%	10.3%
Pvt Pay	29%	37.3%
Totals	100%	100%

Last Five Months w/Property Tax and County Overhead Allocated Monthly

	Sep-11	Oct-11	Nov-11	Dec-11	Jan-12
Medicare A Medicare B Medicaid Pvt Pay Adult Day-Private Adult Day-TXX Miscellaneous Property Tax	\$ 268,336 \$19,537 \$526,081 \$275,440 \$7,392 \$14,191 \$39,595 \$82,997	\$ 211,478 \$47,635 \$535,725 \$285,680 \$7,614 \$13,586 \$3,921 \$82,997	\$292,936 \$33,301 \$467,447 \$379,317 \$59,985 \$11,323 \$4,482 \$90,552	\$ 269,111 \$ 27,443 \$456,867 \$418,380 \$7,950 \$14,065 \$1,112 \$86,119	\$267,048 \$32,308 \$464,209 \$394,211 \$8,120 \$10,634 \$4,109 \$86,119
All Revenues	\$1,233,569	\$1,188,636	\$1,339,343	\$1,281,047	\$1,266,758
All Expenses	\$1,272,828	\$1,178,625	\$1,200,618	\$1,255,779	\$1,239,820
Net Income/(Loss)	\$(39,259)	\$10,011	\$138,725	\$25,268	\$26,938
Census Change	5854	5,872 0.3%	6032 2.7%	6,192 2.7%	6133 (1.0)%
ADC Change	188.8	196 3.7%	194.6 (0.6)%	199.7 2.6%	197.8 (0.9)%
FTE	174	174	173	183.1	180.3

January's ending cash balance was \$1.091k at month-end, a bit lower than in December but still a testimonial to how thin CCNH's cash position really is. Accounts Payable for January was \$1.616 million. Cash position remains tight and this roller-coaster situation continues to retard overall performance.

The following graphs provide a comparative statement of position for CCNH through January 2012.

The solid line is a trend line for the displayed data and it should appear in red on your computers. (These graphs will display best when viewed on your screens.)

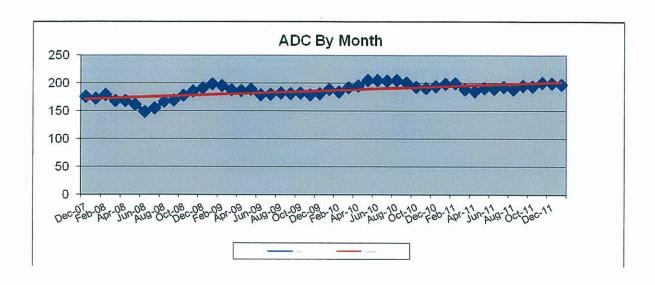

Census

Census continues to receive a lot of attention. Fiscal 2010 ended with an ADC of 196.5 versus our target of 195. Fiscal 2011 (December and January) got off to a good start. However, as you have been following things via the flash updates, census has trailed off.

The recent trend is not comforting although, for the last three months, CCNH has met its census target of 195:

ADC Since January 2010

Revenues

For eleven of the last twelve months, revenues have been less than \$1.2 million (property taxes excluded). July, August were the lowest yet at \$1.108 million and \$1.103 million, respectively. November was a bright spot at \$1.602 million (retro IGT). December was \$1.194 million – close but not quite there. The critical factor still is with Medicare revenues, although there have been significant swings with Medicaid and Pvt Pay. Usually these swings work against each other, i.e., Medicaid increases and Pvt Pay falls. Overall, Fiscal 2011 saw large swings in volume and revenue, leaving a huge revenue gap with Medicare that still needs to be filled.

CCNH's Medicare A volume is virtually the same as last year's when compared to the same period. It is a different story when one compares CCNH's current performance against its midyear figures; the drop has been significant and it has had a telling impact on revenues. So, while revenue from patient services is down about 6 percent, Medicare A is down over 25 percent.

Revenue From Pt Services By Month in millions

	All (avg)	Medicare (avg)
July 2010 thru Jan 2011	\$1.246	\$0.357
Feb 2011 thru Jan 2012	\$1.169	\$0.267
Change	\$(0.077)	\$(0.09)
Percent	(6.2)%	(25.2)%

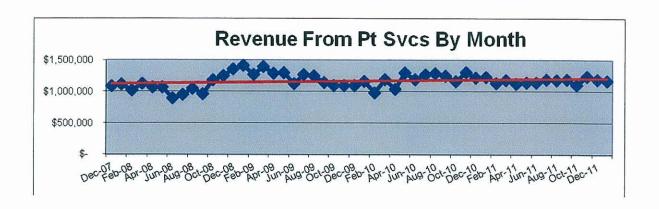

Medicare Average Census Days

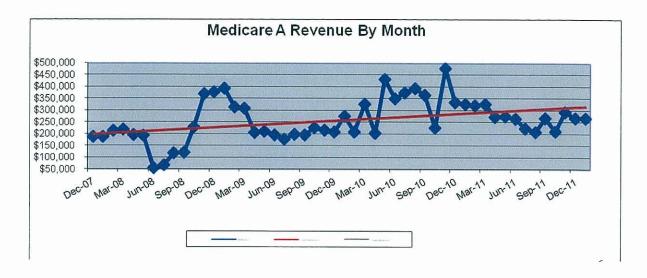

Period	Days/m onth
Dec09-Mar 2010 Dec10-Jan 2012	592 522
Apr10-Nov 2010	756
Pct Chg (Nov 10 over Jan 12)	(31) pct

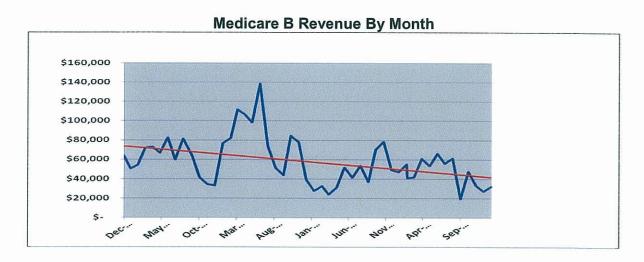

The trend line in Medicare A is fragile. Because of better volumes since March 2010, the trend turned positive. However, if the current Medicare malaise continues, CCNH's trend line will turn negative; fiscal 2011 itself was not good. Medicare census remains a critical ingredient to success and it also remains elusive.

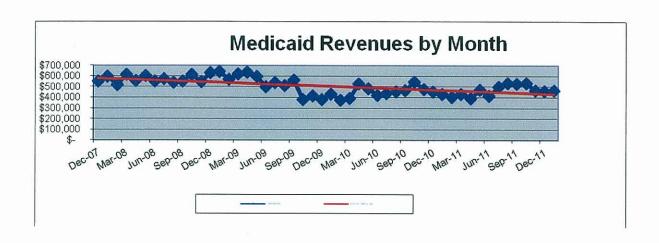

The Medicare per diem is a critical factor in building a better revenue base and we have significant improvements to make in our performance. Per diem performance was good prior to October; you'll see in the graph below that this month's per diem took a big hit.

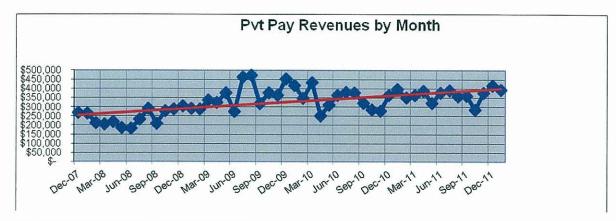

For the most part, Medicaid revenues continue to be stable. Since November, Medicaid revenues have decreased slightly, fortunately off-set by Private Pay. Recently, however, Medicaid is on the rise.

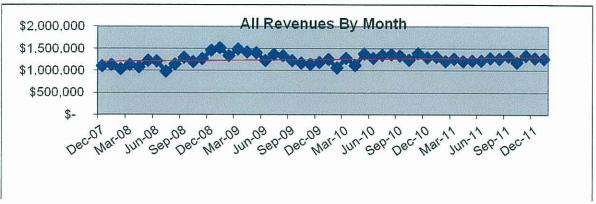

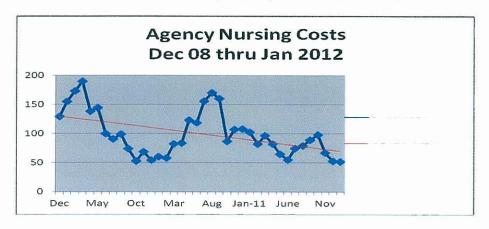

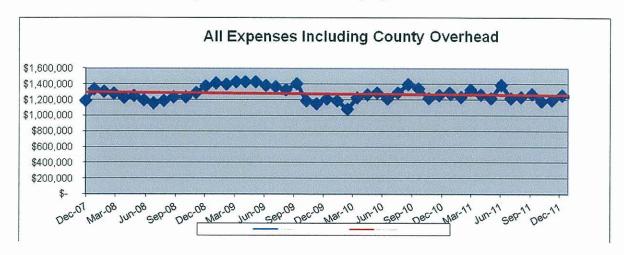

Expenses

Total expenses for January amounted to \$1.240 million; the expense level was down this month from previous months, which were burdened with higher than normal holiday and vacation time.

The following graph illustrates agency expense through January 2012.

The big picture view appears in the following graph. The figures since October 09 reflect the elimination of the transfer expense associated with IGT program.

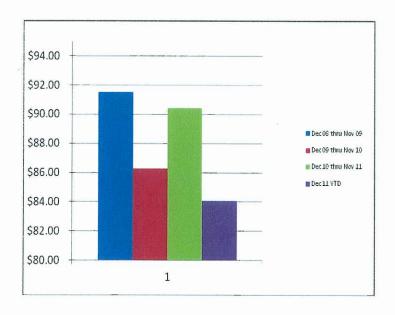

Salaries continue to be our biggest cost. Graphically, the salary relationship is presented below.

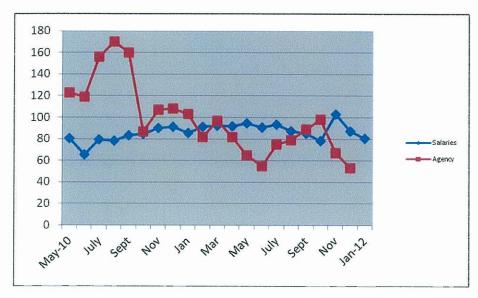

Salaries per resident day are settling in at \$90-\$92. The big picture, though, gives you the salient point: CCNH costs are under control. Salaries per day are up compared to last year, but that is more than off-set by the reduction agency costs. The last graph, below, compares salaries to agency, and there has been a big improvement in containing outside staffing costs. Despite a few tumbles here and there, CCNH staffing controls are usually effective.

Salaries Per Resident Day By Fiscal Year

Summary

Census continues to be the big determinant of success. The last fiscal quarter closed with much better volumes than CCNH experienced in quarters 2 and 3, and we are off to a good start in 2011. Medicaid had been trending up, both in terms of volume and revenues; November and December reversed that trend with December showing a sharp rise to 35 percent Pvt Pay. With Medicare, we have experienced lower volumes and revenues.

With the IGT payments having been received and with the State of Illinois paying Medicaid on a regular basis, the balance sheet is in much better shape. We expect Medicaid payment slowdowns to begin again in August or September once the State has paid off its fiscal 2011 obligations. We anticipate a much longer payment delay, possibly accompanied by a rate cut.

Re: Cash Position

Sources & Uses of Anticipated Funds

Attached are several exhibits showing CCNH's cash position as of January 31, 2012.

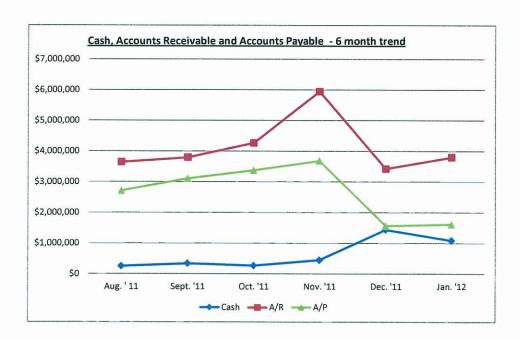

Perhaps the graph exhibit best represents the changes in the important balance sheet accounts: cash, accounts receivable, and accounts payable. The receipt of a large amount of retro IGT payments was a huge boost; with the State now paying regularly, CCNH should enjoy predictable cash flow until August or September, when the slow payment fun begins all over again.

Since November 2011, Accounts Receivable and Accounts Payable are down appreciably. Cash is up. However, cash dropped in January while A/R spiked by a small amount. That situation is under review. A large cash payment of about \$170k (IGT) was received in February.

Re: Corporate Compliance Backgrounder

This memorandum is intended to give you some background into the requirement that corporate compliance programs be instituted in all skilled nursing facilities. Hospitals began developing compliance programs years ago and are well ahead of the nursing home segment.

Admittedly, the timing on this couldn't be worse, given the problems with Illinois Medicaid. That said, the requirement is not likely to change regardless of the outcome of the pending health reform litigation. The Federal government has spent heavily on anti-fraud activities and intends to spend more; the return on its investment is very high, making an ounce of prevention well worth the price. There are no signs that this Federal emphasis will abate.

As the government increases enforcement of its health care fraud laws, and compliance programs become mandatory, MPA is prepared to reduce nursing homes' legal risk with its Shared Compliance Programs.

Fraud enforcement (and penalties) are up

SNFs that operate without an effective compliance program run the risk of violating laws such as HIPAA (and HITECH), the Anti-Kickback Statute, the Civil Monetary Penalties Law, the False Claims Act, the Stark (physician self-referral) Law, and Medicare and Medicaid requirements. Violations can result in costly penalties, and the government's effort to impose penalties is on the rise.

Last year, 1,235 people were prosecuted for healthcare fraud—a 69% increase over the prior year. Also last year, 2,062 people and organizations were excluded from federal healthcare programs. This enforcement rend is here to stay: the Affordable Care Act increases funding for healthcare enforcement activities by \$250 Million over the next 5 years. The following are a few of many recent compliance-related penalties:

 A behavioral health care provider paid \$109,689 to settle allegations that it submitted claims for services performed by 2 people who had been excluded from Medicare/Medicaid (the provider did not check the OIG exclusion list before hiring these people).

- A nursing home paid \$305,072 and was required to hire a full-time physician or NP after it was found to have sub-standard pressure ulcer treatment and prevention, incontinence care, pain management, nutrition, weight monitoring, infection control, and diabetic care.
- A hospital paid \$471,933 after it discovered it had made billing errors for the drug Lupron, which resulted in overpayments by Medicare—and did not report the error or repay Medicare.
- UCLA Health System paid \$865,500 and entered a 3 year corrective action plan, to settle
 allegations that unauthorized employees looked at the PHI of celebrity patients and other
 patients, in violation of HIPAA's Privacy and Security Rules.
- A hospital paid \$6.3 Million to settle allegations that it classified patients as inpatients when they should have been classified as outpatients or on observation status.
- A medical equipment company paid \$42 Million to settle allegations that it submitted claims for Medicare patients who no longer qualified for the equipment, including patients who had died or were no longer using the equipment.

It's not getting any easier...compliance programs will soon be mandatory

The Affordable Care Act mandates compliance programs in all SNFs by March 23, 2013. The Affordable Care Act also requires compliance programs as a condition of Medicare and Medicaid enrollment. March 23, 2013 may seem like a long way away, but keep in mind that it can take at least a year to implement an effective compliance program.

Your compliance program must be effective

Criminal sanctions may be mitigated by a compliance program, but only if that program is effective. Having a written compliance program document in the filing cabinet is not enough. The day-to-day implementation and ongoing audits are what make compliance effective—and yet most people skip this step!

Operational effectiveness is more important now than ever before

Reimbursement cuts, combined with an increasingly complex regulatory landscape, make the management of revenues and costs a necessity. Substandard care, HIPAA violations, careless vendor agreements, and other common mistakes can lead to financial penalties. Billing errors can lead to unexpected repayments. Using a shared compliance resource is an economical way to improve your processes and prevent these penalties and repayments.

How MPA can help

MPA saw a huge need for comprehensive compliance programs—not just a written document gathering dust on a shelf, but a fully implemented program with strategic oversight. We also saw, with our managed facilities, that hiring a full time employee or paying an attorney an hourly rate to build a compliance program from the ground up is cost prohibitive. This is how we came up with the idea of shared compliance programs. The idea works similarly to our shared financial reporting services. MPA can provide compliance services tailored to each SNF, working closely with their existing staff and procedures. Instead of each facility building a compliance program

from scratch, MPA brings its resources and legal and management experience to multiple facilities—and shares best practices among these facilities, improving compliance efforts for all.

The toolkit

MPA's Shared Compliance Program includes, for a fixed annual fee:

- A baseline audit to develop your baseline compliance status and identify improvement goals
- Policies and procedures to minimize risk, adhere to regulations, and improve quality of care
- Assistance with compliance training to advance your staff's understanding of compliance goals and procedures related to their duties
- Strategic guidance with regular audits that evaluate your facility's compliance with policies and procedures, and directs your compliance activities to address changing risk areas
- Focus groups with other MPA clients to share best practices
- An independent reporting hotline for employees to report compliance issues anonymously
- Ongoing review of and updates to the compliance program based on the latest regulatory and practice developments

Benefits

MPA's Shared Compliance Program will allow you to:

- Minimize financial loss with reduced sanctions and penalties. The OIG views the existence of an effective compliance program as a mitigating factor in fraud and abuse cases. Plus, under the Affordable Care Act, deficiencies that are self-reported and corrected may receive reduced civil monetary penalties. Effective compliance programs can also detect systemic failures of care that can result in liability for submitting false claims under the False Claims Act and the Civil Monetary Penalties Law.
- Improve quality of care and enhance your reputation. Adherence to standards of quality of care and compliance enforcement increases resident satisfaction, market competitiveness and employee loyalty.
- Lower exposure to liability. By emphasizing compliance and improving your processes, many lawsuits can be avoided.
- Reduce compliance program costs via economies of scale. All MPA Shared Compliance Program services are included in your annual fee—saving you the expense of hiring an attorney at an hourly rate, or adding full-time staff and overhead to your facility.
- Improve best practices. You will actively participate in user groups with MPA's other clients to benefit from multiple experiences, improve your compliance processes, and advance best practices.

- Reduce whistle blowing. By using MPA's reporting mechanism, which is both confidential and outside of your facility, employees will be more comfortable reporting incidents within the organization rather than to the authorities.
- Minimize repayments. By standardizing your processes and auditing your procedures, you can improve your billing accuracy, reducing the need to repay overpayments made by Medicare.

Re: Renal Dialysis Status/Update

Attached to this memorandum is a Briefing on renal dialysis. The Briefing is intended to update you on how CCNH might establish a renal dialysis service. The Briefing is not exhaustive; at this point, however, we know enough to establish a strategic direction and to recommend that CCNH move forward with providing the service.

First, there is a need for a dialysis program in a skilled nursing setting. The demand is not huge, but it is steady and will grow in the future. In performing our market analysis, we opted for a conservative assessment of demand and, therefore, lowered our assumptions whenever appropriate.

There are two existing free-standing dialysis facilities in the community already. CCNH uses these facilities now. (CCNH averages 2-3 dialysis residents currently.)

Second, we approached our evaluation of this service from the perspective of preserving capital. CCNH doesn't have surplus cash; therefore, any investment must be prudent and must pay off. As a result, we have emphasized two approaches, one of which will emerge as the preferred option:

- a. Put the program in place with vendor-financed tenant improvements where the vendor leases space for the program. This option involves renovation to vacant space in the Adult Day Care area. The capital investment creates a dedicated dialysis environment and, by being able to treat multiple patients at a time, uses labor in a very productive manner.
 - It is entirely possible that we determine that CCNH should use its own cash for this project. The capital outlay would approximate \$300k. In the current environment we recommend that we maximize CCNH's cash holdings at every opportunity.
- b. Designate a small block of single-bed rooms and integrate dialysis into CCNH's normal workflow. This option has little, if any capital investment but may result in higher labor costs as productivity may not be as great as with option a).

Third, there is regulatory involvement. A Certificate of Need is not required. However, any build-out, as contemplated in option a, above, will require IDPH approval and certification. Regulatory participation extends the time to bring option a) to fruition; we are estimating a 6-month project schedule. We are still evaluating the schedule with option b).

Another dimension of regulatory involvement is vendor/program licensure. The Briefing provides more details and they are significant factors in how dialysis is approached.

Fourth, the financial projections look realistic based on what we know so far. The financial model was built using the following details:

- Medicare per diem of \$425;
- Standard Medicaid rate;
- Usual and customary Pvt Pay rates
- All costs to be paid to PRS Dialysis
- Incremental costs for therapy (Medicare only)
- Incremental costs for routine CCNH services based on 2012 budget
- Any CCNH capital outlays

Return on program revenue is in excess of 40 percent and break-even occurs at 5.6 residents per day, average. Some of the details are still in the process of refinement and I will update you promptly.

Champaign County Nursing Home Renal Dialysis Program Briefing

Background

CCNH must maintain occupancy and maximize its' Medicare census. In the Champaign County market, Medicare hospital referrals are a competitive challenge between SNFs. MPA is currently evaluating an in-house dialysis treatment program. None of the nursing homes in Champaign County provide an in-house dialysis program. CCNH and the other nursing homes currently utilize two outpatient dialysis centers. Patients that travel to local dialysis centers are dialyzed three times a week for four hours, Monday through Saturday. The availability of transportation, treatment days/times leaves little scheduling flexibility based on the needs of the patient.

An in-house dialysis program will provide a competitive advantage for CCNH. Hospitalized dialysis patients will prefer to come to CCNH, increasing overall occupancy and, in particular, Medicare census.

This briefing highlights the program structure and the programmatic options that are being evaluated.

Market Demand Analysis

We began our demand estimating the future demographic characteristics of Champaign County seniors. The following table presents the relevant data:

Senior Population Changes 2010-2015 Champaign County, Illinois

	2010	2015	Pct Chg	
65-74	9,718	11,279	16%	-
75-84	6,639	6.671	-0-	
85+	3,103	3,407	10%	
Total Seniors	19,460	21,357	10%	
Total County	195,688	201,741	3%	

Source: Claritas,Inc

Using data from American Hospital Directory database, we quantified the discharge activities of both Carle and Provena for 2008 thru 2010, the latest years for which data are available. We used DRGs 682 thru 684, which cover End Stage Renal Disease and found three-year total discharges to be 757, or 256 per year.

We opted for a conservative projection and applied the incidence of ESRD as reflected in the hospital discharges to the 2015 projected population for seniors 75+. The calculation looks like this and concludes with an estimated average daily census of 14.

Projected demand, 2015, ages 75+	235
Risk corridor	28%
Market adjusted for risk	168
Market capture rate	50%
Cases to CCNH	84
ALOS, Medicare	60
Census days	545
ADC	14

For projection purposes, we reduced the estimated 14 cases by 20 percent and forecast results based on a census of 11. The rationale for this final reduction in volume is that CCNH customarily has 2-3 renal cases in its daily census. Projecting additional revenues on existing cases would be the equivalent of counting them twice.

Payor	Average Census	Mix
Medicare	6	55%
Medicaid	3	27%
Insurance	2	18%
Total	11	100%

The largest projected volume is with Medicare. In practice, we expect all admissions to the program to be hospital-generated and, therefore, to be Medicare. Also in practice, not all residents will be discharged to home after the 100-day benefit period ends. This remainder groups constituted the Medicaid and Insurance portion of the projected census.

Over a 52-week period at 3 treatments per week, annual volume is projected at 1,716 treatments.

Dialysis Options

Two dialysis program models are being evaluated. The first is the program offered through PRS and the second program is provided by Davita.

PRS Model

PRS Service Delivery Model

PRS Dialysis, Inc. provides a complete dialysis center program, including management, staff, supplies, equipment, and treatment. The program model requires a dedicated dialysis treatment area. CCNH currently has vacant space

located beside the Adult Day Care program. The vacant space totals approximately 2,800 square feet, has an external entrance, locking storage area, an office, a janitor's closet, restroom, telephone and internet wiring, three hand sinks, and is part of the Home security system. The space is currently used for meetings and for additional activity space.

PRS would bill Medicare Part B for covered services and CCNH for non-covered services. The estimated cost per treatment to CCNH is \$65.00. The success of the program is dependent upon generating a higher Medicare census; accordingly, establishing comfort with the market analysis is critical.

Site visit to a PRS facility

Karen Noffke, Director of Nursing; Traci Harris, Assistant Administrator; and Andrew Buffenbarger conducted a site visit to the Community Nursing & Rehabilitation Center (CNRC) in Naperville, IL where CNRC provides hemodialysis through the subcontractor PRS Dialysis, Inc. CNRC is a privately owned 153-bed skilled nursing facility with a historical average daily census of 127 including a Medicare census of 17.

The group met with the Administrator, Director of Nursing, Dialysis Center Director, and conducted a tour of the dialysis unit. The staff reports that the dialysis center has increased CNRC's market area up to a range of about 50-miles, which is a substantial increase over the pre-dialysis market area. CNRC also reported strong resident satisfaction ratings, good clinical management of patients with end-stage renal disease, and an improved census. For CRNC, Medicare census grew by 30 percent and its service area grew by 20 miles.

CNRC promotes the inpatient dialysis program as a treatment option that relieves patients of travel outside of the home as frequently as three days per week. Staff reports that the stress of travel for a debilitated dialysis patient can be significant. Dialysis patients that also participate in rehabilitative therapy are commonly unable to participate in therapy on dialysis days, reducing the frequency and success of rehabilitative programs.

CNRC provides dialysis services to residents participating in Medicare part A and insurance-paid skilled nursing services. Long-term care residents are not eligible to participate in the facility dialysis program but can access community based dialysis centers.

Program Capacity

Dialysis services will be provided on a 12-hour per day schedule. Each dialysis chair can be occupied three times in four-hour increments. PRS Dialysis recommends a six chair unit with a maximum daily capacity of 18 patients.

Licensure & regulatory issues

Dialysis centers are certified by the Centers for Medicare and Medicaid Services (CMS). A Certificate of Need demonstrating the viability of the program and community need is not necessary in this case as nursing home based dialysis programs are exempt from the CON process. CMS, through IDPH, will conduct an initial inspection of the dialysis center and may conduct periodic inspections thereafter.

Renovation Requirements

The adult day care area will require renovations in order to meet the PRS program requirements. An evaluation by PRS Dialysis and SAS Architects revealed that this space is well-equipped for conversion into a dialysis center. Preliminary estimates to convert the space into a functional dialysis center including additional electrical work, plumbing, drywall, paint, deconstruction of existing walls, flooring, etc is estimated between \$175,000 - \$235,000, with additional equipment and supplies estimated at \$15,000.

DaVita Model

DaVita operates one of the community-based dialysis centers in the Champaign-Urbana market.

DaVita Service Delivery Model

More information is being gathered about this approach. Essentially the method is to provide dialysis at the bedside rather than in a central location.

Program Capacity

Aside from the constraints of a small market, the program capacity is limited by the number of single rooms CCNH can make available. CCNH may be able to respond to changes in volume easier with the bedside model than with the central model.

<u>Licensure & regulatory issues</u>

The CMS license remains a requirement, and DaVita is currently licensed. We need to understand more of the possibilities that may be available under DaVita's license.

Renovation Requirements

Renovations appear to be minimal; there may not even be any, in which case the involvement of IDPH will be reduced.

Re: Management Update

This is the forty-third in a series of updates designed to keep you current on developments at CCNH.

- 1. Census: CCNH's census remained over 195 for the last few months, a very welcome development. In December, Pvt Pay jumped to almost 38 percent of total days. In January, Pvt Pay was 35 percent still an excellent result and an indication that CCNH can attract a high percentage of market rate clientele.
- 2. **Operations:** January had a gain of \$27k. There were no extraordinary events. Revenues remained low despite the high census and that phenomenon continues last fiscal year's major story. Medicare revenues continue to be our frustration. Medicaid was down and Pvt Pay was up; we are not getting traction with Medicare.

Additional IGT funds of approximately \$170k were received on February 22. This check was the first of the routine IGT payments; details of the calculation have been requested from HFS.

There are no new developments on short-term financing. It remains a priority. We are working with one bank, which has agreed to purchase RANs from the County. The exact terms still are the subject of negotiation, but the positive news on this is that the bank has submitted a written statement of interest. Because the need for financing is several months into the future, that's probably the best one should expect.

The Medicaid situation remains dire. There is no other way to assess it. Providers will be asked to take rate cuts. The immediate targets appear to be hospitals and physicians; assuredly, though, skilled nursing facilities will experience the pain. Re-structuring the Medicaid system is receiving lots of attention and the program has been under way for some time now. However, there is no way that managed delivery can save the required amount of money in such a short time, all by itself. Expanded Medicaid enrollments and benefits are a large part of the problem.

Relief via the Illinois Finance Authority remains a possibility. Such a program would allow CCNH to finance as much as 97 percent of its Medicaid receivables; the current RAN

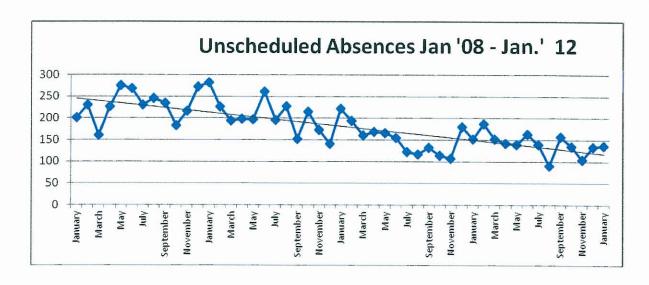

authorization level is 85 percent. While the concept has been finalized, the details are proving to be difficult. Accordingly, the only option for CCNH is to seek relief in the private sector.

Our proposal for regular payment to County homes has been submitted to the Governor. There has been a follow-up meeting between the Office of Management & Budget and the Comptroller. The good news is that Metro Counties is now solidly behind our efforts. The bad news is that there is still a large amount if inertia to overcome.

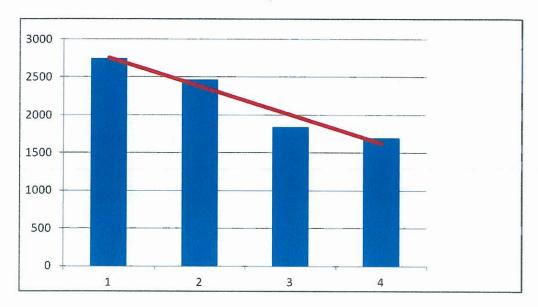

There is no further update on IDPH. A separate complaint investigation is under way now. If there are findings, and at this point there are none, closing out the Annual Licensing Survey may be complicated, i.e., CCNH might be facing denial of payment issues once again.

Employees: Over time, the unscheduled absence position is looking pretty good; CCNH is showing a big improvement that appears to be standing the test of time. The high point was 283 in January 2009 with the average for 2008 reaching 229. Here's the latest through January 2012 along with some historical averages:

Period	Average Absences	
June - Dec 09	195	
Jan- June 10	178	
July-Dec 10	129	
Jan-June 11	156	
July- Dec 11	127	
Fiscal 2011	145.4	

Unscheduled Absences by Year, 2008-2011 Year 1=2008; Year 4-2011

On another matter, CCNH lost an arbitration hearing and will see a dismissed employee returned to work.

As always, give me a call (314-434-4227) or zap me via e-mail if you have questions or want to discuss anything.
