DULE OF EXPENDITURES OF FEDERAL AWARDS

NOTE 1 - BASIS OF PRESENTATION

This accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Champaign County under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of 2 CFR Part 200, "Uniform Administrative Requirements Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance)". Since the Schedule presents only a select portion of the operations of Champaign County, it is not intended to, and does not, present the financial position changes in net assets or cash flows of the County of Champaign.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are prepared using the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowable, or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits, made in the normal course of business, to amounts reported as expenditures in prior years. Champaign County has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 - NON-CASH ASSISTANCE

Champaign County did not receive any non-cash awards during fiscal year 2019.

NOTE 4 - INSURANCE IN EFFECT, LOANS , AND GUARANTEES

Champaign County did not receive any federal awards in the form of non-cash assistance for insurance in effect during the year, loans, or loan guarantees.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Champaign County, Illinois as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Champaign County's basic financial statements, and have issued our report thereon dated June 1, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be material weaknesses and another deficiency that we consider to be a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2019-001, 2019-003, and 2019-004 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-002 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report on Compliance
for Each Major Federal Program;
Report on Internal Control Over Compliance; and
Report on the Schedule of Expenditures of
Federal Awards Required by the Uniform Guidance**

To the Members of the County Board of
Champaign County
Urbana, Illinois

Report on Compliance for Each Major Federal Program

We have audited Champaign County's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2019. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of This Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Champaign County, Illinois as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Champaign County's basic financial statements. We issued our report thereon dated June 1, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

COUNTY OF CHAMPAIGN
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended December 31, 2019

**SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Item 2019-001: Nursing Home Cash Receipts Process (previously reported as Item 2018-001)

Criteria: The internal control structure over cash receipts processes should include appropriate segregation of duties, monitoring controls such as reviews of system inputs and monthly reports, and documentation of formal reviews and approvals.

Condition: Patient status and billing rates entered into the Nursing Home's patient billing software (Matrix) are reviewed after entry into the system, but the review is informal and not documented. Review and reconciliation of monthly census data reports is not documented. Additionally, the review and approval of receivable account write-offs is not documented and timely reconciliations of the Matrix subledger to the County's general ledger were not completed. Lastly, the individual responsible for posting cash receipts to the County's general ledger has cash handling responsibilities, including opening of mail and access to the lockbox.

Cause/Effect: Lack of documented independent review and lack of segregation of duties could result in errors in cash receipt reporting or fraudulent activity going undetected by Nursing Home and County management.

Recommendation: A formal, documented review of key inputs into Matrix after entry and monthly census data reports should be completed. The Matrix subledger and County general ledger should be reconciled on a monthly basis. Responsibility for cash handling and posting of revenue into Matrix should be segregated with no individual having access to do both.

Management's Response: As of April 1, 2019, Champaign County no longer owns or operates the Nursing Home as it was sold to University Rehabilitation Center of C-U LLC and University Rehab Real Estate LLC.

**SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS (CONT'D)**

Item 2019-002: Segregation of Duties / Secondary Review (previously reported as Item 2018-002)

Criteria: Effective internal controls require the existence of policies and procedures that support segregation of duties.

Condition: Within several key transaction cycles, a lack of segregation of duties was noted. The lack of segregation of duties is primarily due to staffing size restrictions and/or system limitations, which make implementing complete segregation of duties impractical.

Within the payroll process, the individual responsible for processing payroll is also responsible for generating payroll checks and direct deposits. The individual also has access to add new employees and change pay rates, although this is not within the individual's job description.

Within the property tax collection and distribution cycle, we noted that the individuals responsible for preparing monthly reconciliations for the collector accounts also have the ability to process tax collections.

We noted that several County departments do not regularly reconcile decentralized cash collections between the subsidiary ledgers (maintained by the County department) and the general ledger.

Cause/Effect: Lack of segregation of duties and secondary review controls could result in an unauthorized transaction, an error in reporting, or other fraudulent activity to occur and not be identified by County management.

Recommendation: Responsibilities for entering personnel information into the payroll system, processing of payroll each period, and generating of payroll checks and direct deposits should be segregated across multiple employees with access restricted so that no individual can complete all components of the payroll process. If such segregation cannot be realized due to system limitations or staffing restrictions, alternative monitoring controls should be implemented such as a periodic review of change logs within the payroll system focusing on creation of new employees and manual changes to wages in the payroll system.

Departments maintaining separate subsidiary ledgers should reconcile subledgers to the County's general ledger on a routine, timely basis. The reconciliation should be reviewed by someone other than the original preparer.

**SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS (CONT'D)**

Item 2019-002 (cont'd): Segregation of Duties / Secondary Review (previously reported as Item 2018-002)

Management's Response: The Regional Planning Commission enters its payroll information including adding new employees and changing pay rates. The Payroll Accountant reviews this information for accuracy. For other County departments, both the Payroll Accountant and the Deputy Director of Administration (a new position) will receive Personnel Information Forms for new employees and changing pay rates, which are electronically submitted by departments. The Deputy Director of Administration enters the pay rates, and the Payroll Accountant reviews this information for accuracy. Biweekly payroll (time and wages) is approved and submitted to the Payroll Accountant by each department (the department is the original preparer). Upon receipt, the Payroll Accountant reviews the department-submitted payroll for accuracy prior to processing. After processing, an Audit Trail report for employee changes and additions is sent to the Auditor's Office and the Deputy Director of Administration. The Deputy Director of Administration reviews the report for accuracy, signs and dates to document review.

The Champaign County Treasurer's office employs 4 full-time employees, two of whom perform reconciliations, one for the Treasurer bank accounts and one for the Collector bank accounts. It would be onerous to segregate real estate tax collection staff from the distribution cycle. The need for segregation of duties must be balanced against staffing costs. The Treasurer's Office is an efficient operation with limited employees, separating duties when possible.

County departments maintaining separate subsidiary ledgers will be instructed on proper segregation and protocol by the Auditor's Office for reconciliation on a routine, timely basis.

**SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS (CONT'D)**

Item 2019-003: Bank Reconciliation and Timeliness (previously reported as Item 2018-003)

Criteria: Bank reconciliations are a critical element of a strong internal control environment and should be completed in a timely fashion on a monthly basis.

Condition: The 2019 bank reconciliations for accounts maintained by the Treasurer's Office were not prepared and reviewed in a timely manner.

Cause/Effect: Lack of timely completion and review of monthly bank reconciliations could result in unauthorized transactions, unrecorded cash receipts, reporting errors, or fraudulent activity not being identified by County management or such activity, if identified, not being appropriately remedied in a timely manner. Additionally, the lack of timely completion of bank reconciliations greatly increases the likelihood of inaccurate and incomplete financial records and monthly reporting being used for management decisions.

Recommendation: Bank reconciliations should be completed and reviewed within one month of receipt of monthly bank statements. Reviews of reconciliations should be documented and completed by someone other than the original preparer.

Management's Response: The County has appropriated funds for a dedicated temporary staff person to reconcile the cash balances of funds to their transactions as recorded in the accounting system. The Auditor's office is conducting the 2020 reconciliations in parallel to those of the treasurer in order to ensure completion in time for—and to the standards of—next year's external auditor. Going forward, the Chief Deputy Auditor will initiate reminders to the treasurer to punctually submit these reconciliations for his review.

**SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS (CONT'D)**

Item 2019-004: Treasurer's Office Transaction Recording and Disbursement Approvals

Criteria: Timely recording and authorization of transactional activity is critical to ensuring a strong internal control environment and accurate financial reporting.

Condition: Within the Treasurer's Office, cash and electronic receipts were not consistently or accurately recorded in the County's general ledger on a timely basis and daily reconciliations of cash deposits were not completed to ensure completeness and accuracy of activity recorded in the general ledger. Additionally, electronic distributions of property taxes to other local entities were created and approved by the same individual without independent review and approval.

Cause/Effect: Failure to record transactional activity on a timely basis could result in the County not identifying fraudulent activity and greatly increases the likelihood of inaccurate and incomplete financial records being maintained and used for management decisions. The lack of timely reported and reconciliation of activity is exacerbated by the lack of documented, independent approval of electronic disbursements, resulting in a greater risk of inaccurate or inappropriate transactional activity going unidentified.

Recommendation: We recommend the Treasurer's Office record receipt activity on a daily basis in conjunction with daily cash deposit reconciliations to ensure accurate and complete recording of receipt transactions in the general ledger. This process should include a formal, document review by someone other than the individuals responsible for cash handling, transaction recording, and preparing the daily reconciliations. Additionally, all ACH transactions should be approved by someone other than the individual who initiated the disbursement. The Treasurer's Office should work with the bank to implement controls requiring secondary approval prior to the release of any ACH disbursements.

Management's Response: The 2019 finding has been corrected through the implementation of a cash receipting system maintained by the account clerks that provides details of each cash receipt including delivery date to reflect the processing within 48 hours. The account clerks have since been able to process the receipts without delay. The Treasurer's office is currently implementing a similar system for electronic deposits which should go live in July of 2021.
