

Julia Carls, B.S.

Law Enforcement

FAMILY ADVOCATE

Originally from Galesburg, Illinois, Julia is now proud to call Fisher, Illinois, home.

Julia earned her bachelor's degree in law enforcement from Western Illinois University in 2009. Before joining the Children's Advocacy Center, she worked as an early childhood educator and previously owned and operated her own business for more than a decade. Throughout her education and career, Julia has worked closely with children and families, including those from marginalized communities.

These experiences have deepened her commitment to advocacy and strengthened her passion for empowering families, connecting them with resources, and ensuring their voices are heard.

Outside of work, Julia enjoys spending time with her husband and two children, gardening, baking, attending concerts, and enjoying outdoor activities with her family.
