Susan Fowler Application for DD Board opening May 15, 2013

What experience or background qualifies me for the board?

I have personal and professional qualifications to serve on a board addressing services for individuals with disabilities. Personally, I have a 20 year-old son, who has a dual diagnosis of developmental disabilities and mental illness—as a parent I have advocated for his services and gathered information on all possible supports for him. He graduated from high school in 2012 and I was not prepared for the transition to adult services---I've spent the last 9 months learning as much as possible about adult services related to mental health, health care, developmental disabilities and employment support in the community . I have spoken with members of many agencies as I have attempted to determine eligibility criteria and waiting lists. It became clear that the demand for services far outstrips the supply.

Professionally, I have been involved with special education as a professor, researcher and national advocate for the past 30 years. I came to Champaign County in 1990 to chair the U of I Special Education Department, and ten years later assumed the role of Dean of the College until 2006. I am used to listening carefully, looking for consensus when possible and making often tough decisions, particularly related to funding. On the national level I have been active with organizations such as the Council for Exceptional Children (CEC) and Higher Education Consortium for Special Education Chairs (HECSE), serving on the government relations committee, the board and as President of both groups. Much of my responsibilities included developing positions on critical issues in the field (e.g., use of positive behavior supports in schools, professional standards for educators), lobbying with Congressional leaders and staff (e.g., for continued federal funding of IDEA and personnel preparation) and ensuring that the organizations were responsive to membership. I've made over a dozen visits to the US Capitol to meet with chairs and staff of the Senate Health, Education and Labor Committee and House Education and Workforce Committee, as well as with our elected Illinois representatives. I have testified before congressional committees at the state and national level for financial support for services, for preparation of special educators, and for research for improving the lives of individuals with developmental disabilities and their families. Within Champaign County I served for 3 years on the DSC board, as a parent member, in the mid 1990s. I serve on the Human Rights Committee of Community Choices currently. As part of my university role, I also acquired the state contract for the Illinois Early Intervention Clearinghouse (funded by IDHS), which provides resources and information for parents and service providers of infants and toddlers with disabilities in Illinois (see: http://www.eiclearinghouse.org). My first task as director of the EIC was to write a coherent guidebook for families entering the EI system. I have competed successfully for over 10 million dollars in grants and contracts to support research, personnel preparation, and dissemination of resources. At this point in my career, I would like very much to continue my support

1

of services for families and individuals with disabilities at the local level. I bring deep knowledge (over 30 years) of research, practice and policy in developmental disabilities and the perspective of a parent.

What do you believe is the role of a board member and how do you envision carrying out the responsibilities of the board?

Board members must be well informed about all local agencies and organizations that provide and or/coordinate services for individuals with disabilities, including residential, vocational, educational, transportation, health and social. Members of the board should seek to identify ways in which organizations can collaborate to improve services and avoid unnecessary duplication of services. It will be through cross agency collaboration that our county can provide a safety net for young adults whose needs are complex and at times have mental health concerns and developmental disabilities As a board member, I understand that one role is gathering information from agencies and organizations who are seeking DD Board funding. This entails evaluating the efficacy and impact of their services and reading with care proposals for new or continued funding. I assume that I would also visit various programs funded by the board. I see my role as an advocate for the best possible services for adults with developmental disabilities and their families. Given the long waiting lists and difficulty of implementing the Ligas Decree, it is critical that services supported by the Board impact as many eligible individuals as possible. This will entail learning about all current services and working with the other members of the board in our sessions to ensure that board decisions are made based on careful discussion, efforts at consensus building and ensuring that each decision is consistent with the mission of the board. I am dedicated to serving causes in which my background and expertise can contribute; I use data in decision making; and I have the experience of serving successfully in demanding roles as a professional and as a volunteer. I also follow very closely the actions and funding patterns of federal and state agencies involved with developmental disabilities. Finally, I will be on sabbatical from May 15 to Jan. 15, 2014 from my typical university responsibilities and intend to use this time to learn as much as possible about services for individuals like my son, who because of his dual diagnosis, has been referred from agencies serving DD and agencies serving mental health, with little coordination across agencies. When I return to usual university activities in Jan. 2014, I intend to limit my public service efforts to the DD Board and will not seek or accept other national, state or local positions as a board member.

What is your knowledge of the boards operations?

I understand that the board maintains a regular monthly schedule of meetings and at least annually reviews proposals from local agencies and organizations who are seeking funds to provide new innovative services, expansion of services and in this fiscal climate, maintenance of services. The board is responsible for listening to presentations from these organizations and asking critical questions about the quality and effectiveness of services, number of individuals served and denied as

well as evidence of impact. Ultimately the board must make decisions about who receives DD Board funds and the amount as well as decisions to not fund requests. This means that new members to the Board must come with an open mind and no preferences for one agency over another. I have read the last 6 months of minutes and documents available on the web site for public use. I expect to have a steep and short learning curve should I be selected.

Additional information, Champaign County Developmental Disabilities Board

Philip T. Krein, June 30, 2013

As my son has grown up, I have come to appreciate that people with developmental disabilities want to be active, productive, contributing citizens. Society benefits when our full diversity is represented in the community. I am very concerned about suitable adult services for my son and his peers that do not ignore their capabilities or compromise expectations. Best practices have changed dramatically, and today "person-centered" community inclusion is an important starting point. I believe that person-centered planning should be a process of preparing and providing services that help people reach their full potential, based on careful and thorough considerations of their aspirations and needs. This need not mean expensive one-off intensive individual programs, but it is also not the same as matching clients to an existing service base. We must be more innovative, especially given limited resources, to leverage other support, take advantage of strong volunteerism in Champaign County, enlist families and also those receiving services to obtain the best possible results. I have studied the Ligas consent decree and its implications.

In addition, I have long experience reviewing and evaluating funding proposals, including service to the National Science Foundation and other agencies. I have business experience as Chairman of the Board of a local startup company and have extensive experience evaluating budgets and preparing funding proposals to state, federal, and private sources. I was the Lay Leader at Wesley United Methodist Church in Urbana, and continue to be active there, and I am familiar with many local support agencies.

Addendum to the Champaign County Appointment Request Form

#1. What experience and background do you have which you believe qualifies you for this appointment/reappointment?

Drawing from a number of life experiences is why I believe I would be a strong candidate. For over a decade, having had been a small business owner and administrator for those many years are but two. Already on the Board of the Daily Bread Soup Kitchen and other committees allows me to understand the big picture and its necessary integral components for a successful operation. On the other hand I can now, as a tenant myself, appreciate and offer quality comments on the actual daily operations of the HACC as an "insider."

By being appointed, an important and somewhat historic event would take place as it would increase to two the representation of tenants on the Board. Ultimately it is the tenants (one may think of them as the "insiders") who are the recipients of any and all action passed by the Board and down through management. The perspective of an additional tenant would be deeply beneficial. Too, I have very broad support of the tenants of Washington Square Apartments to become a member of this Board of Commissioners, note attachments.

Curiously, with as many tenants as has the HACC, only a single one out of a seven member board is drawn from that pool and that is only due to federal regulatory requirements. Also of note, candidate terms are five years. Considerations for replacement of the incumbent would support the original spirit and intent of term limits. A new person most definitely can share a different perspective.

#2. What do you believe is the role of a trustee/commissioner/board member and how do you envision carrying out the responsibilities of that role?

As the Executive Director of the Housing Authority of Champaign County (HACC) is already a board member, for me to wax eloquently over closer working relations etc., I could only see as a redundant loop. I believe any potential candidates to this Board should extend him/herself beyond this loop. This is not to imply micro-management of the Director's role but rather to enhance the board's knowledge of tenants' input by visiting the actual people served and thus receiving the fruits of HACC's managerial decisions.

In this vein, I would recommend and encourage Board Members set aside time each month to visit the housing sites for person-to-person interactions. I do not recall ever noting this in the Washington Square Apartments which I could easily believe can be globalized as a goal for all its housing facilities. Politicians have a well-known term, it's called: "shaking hands and kissing babies." I have attended Board meetings since about February 2011 and my observation has been that tenant input is rare. When considering the number of tenants it appears very, very rare. By going out and personally reaching out to the tenants we would be letting this particular body know by a sincere monthly interaction that they are indeed an important part of the broader picture and we wish to directly and further learn from them. Such actions would personalize the Board's image that its concerns truly do run deep. It is called, "The Hawthorne Effect." Elton Mayo described it well and it is can become a very proud win-win effort.

Also, in direct support of more interaction with tenants one might consider the wisdom of Kenneth A. Hendricks, CEO, ABC Supply Co. a \$4.6 Billion dollar corporation and his

philosophy of "If you want to know what's really going on in most companies, you talk to the guy who sweeps the floors. Nine times out of 10, he knows more than the president. So I make a point of knowing what my floor sweepers know – even if it means sweeping the floors" (as quoted in "301 Great Management Ideas from America's Most Innovative Small Companies" © 1991). I would share with the Board what extremely successful businesses consider to be the prime point towards their great success and is there value in these points for us to integrate into our operations.

And yet once again in further support of a much greater Board/tenant interaction is a quote in 1989 from the then Executive Director of the HACC David Murrel in the "HACC's 50 Years Commemorative Brochure" when he stated,"...the Housing Authority of Champaign County is successful only with a strong and cooperative working relationship among tenants, staff, commissioners and the community." Once again – more direct tenant interaction.

#3. What is your knowledge of the appointed body's operations, specifically property holdings and management staff, taxes, fees?

I am aware of the numerous sites HACC oversees, its renovations of these in the recent past, some of the logistic problems in coordinating these events with the tenants and, as a tenant and consistent attendee to the Board meetings, am familiar over these past three years interacting with its management staff. As the hard copies of the financials are not shared with the public at the Board meetings I do not have familiarity with its chart of accounts, individual ledger accounts, I/E nor balance sheets statements.

RE:

Request for re-evaluation of existing position

I am requesting re-evaluation of one of the two Desktop Support Technician positions in the Information Technology Department in order to more closely align the position description to the job duties.

This position is responsible for extracting data and developing custom reports from databases using Crystal Reports and Microsoft Excel. Since many of these reports deal with payroll and timekeeping they are time sensitive in nature and take precedence over other work. Many of the reports are also quite complex and time consuming to develop.

In addition, this position will be responsible for evaluating and testing new software packages and new versions of existing software prior to installation on County computers in order to determine compatibility with existing systems and will work with the Systems Administrators to find the most expeditious way of installing or updating software.

This request should not have an impact on the PC Support services that County IT provides. The other Desktop Support Technician position will be able to cover support duties with the assistance of the Systems Administrators.

Pursuant to Section 9-4.5 of the County Personnel Policy I hereby request that one of the Desktop Support Technician positions be submitted to the Job Content Evaluation Committee for re-evaluation.

Thank you for your consideration of this request.

RE:

REQUEST FOR CREATION OF NEW POSITION

I am writing to request your approval to submit to the Job Content Evaluation Committee the creation of the non-bargaining position of Jury Coordinator. Currently, there exists two part time Jury Clerk positions under the Jury Commission budget, and these positions are supervised by the Court Administrator. One of the two Jury Clerks recently resigned, and in evaluating the needs of the courts for jury personnel, it was agreed that Champaign County would be better served by creating one full-time position, rather than filling two part time positions. In addition, with the implementation of our jury system upgrade, we envision that the Jury Coordinator will have additional responsibilities, including community outreach. Finally, in the interest of better serving the public, and more efficiently coordinating the work of the jury personnel, it has been decided that the Jury Coordinator should report to the Circuit Clerk, rather than to the Court Administrator. At least one Jury Clerk part time position will remain vacant, and may be filled in the event that we experience a higher than usual case volume or an unusually high number of jurors.

Therefore, pursuant to the County's Personnel Policy Section 9-4.5(a), I request your approval to submit the Jury Coordinator position to the Job Content Evaluation Committee for review and evaluation based on the duties and responsibilities I would like to assign to this position.

Thank you for your consideration of this request.

Sincerely,

Katie M. Blakeman Clerk of the Circuit Court Sixth Judicial Circuit Champaign County

Urbana Bicycle Master Plan

The 2013 Urbana Bicycle Master Plan is a comprehensive update of the 2008 Urbana Bicycle Master Plan and builds upon the facilities and programs that were identified in the 2008 Plan. The 2013 Urbana Bicycle Master Plan will also supplement existing transportation plans by providing a framework for the implementation of bicycle facilities throughout the City. The Bicycle Plan will include extensive public outreach, including two public meetings and other activities that involve stakeholder organizations and individuals.

The Bicycle Plan development will include a low-budget survey methodology and related sampling strategy in order to easily, affordably, and reliably document the amount of local walking and cycling happening in the City of Urbana.

Sidewalk Inventory and Condition Assessment for the Champaign-Urbana Urbanized Area

The Champaign-Urbana Urbanized Area has a significant amount of trips made by walking, bicycling and transit. While there are multi-modal facilities for biking and transit, a significant portion of the urbanized area is still lacking a continuous and accessible public sidewalk system. This projects aims to:

- Inventory the entire public sidewalk network including curb ramps and pedestrian crossings within the Champaign-Urbana Urbanized Area
- 2. Assess the condition of the entire public sidewalk network within the Champaign-Urbana Urbanized Area
- Build a foundation that, in the future, would allow the Cities of Urbana and Champaign, the
 University of Illinois, the Villages of Savoy and Tolono as well as Champaign County the use of a
 maintenance management system to track public sidewalk network maintenance
- 4. Develop a set of sidewalk program recommendations that the Cities of Urbana and Champaign, the University of Illinois, the Villages of Savoy and Tolono as well as Champaign County can use to leverage available resources toward sidewalk maintenance and improvement
- Develop a set of recommendations that the Cities of Urbana and Champaign, the University of Illinois, the Villages of Savoy and Tolono as well as Champaign County can use to set policies related to the long term funding of the sidewalk program

Transit Facilities Analysis

This project would be the second phase of the Urbanized Area Transit Facility Guidelines for the Champaign-Urbana Mass Transit District. The project would allow the Champaign-Urbana Urbanized Area Transportation Study (CUUATS) to build on the foundational analysis and recommendations created in the Urbanized Area Transit Facility Guidelines Phase I. More specifically, the inventory of bus stop conditions performed in Phase I would be combined with a network analysis in Phase II to prioritize bus stops within the C-U MTD service area for specific improvements, particularly changes to improve accessibility for persons with disabilities, economically disadvantaged populations, and populations without access to a personal motor vehicle.

RE: Zoning Ordinance Map Amendment Case 687-AM-11

Request: Amend the Zoning Map to change the zoning district

designation from CR Conservation Recreation to AG-1 Agriculture for the purpose of establishing a Restricted

Landing Area pursuant to related Case 688-S-11

Petitioner: Dr. Phillip W. Jones and Sarabeth F. Jones

STATUS

This case had been recommended for DENIAL by ELUC but was deferred from the May 23, 2013, County Board meeting to allow time for the State's Attorney to get direction in a separate court case that might have some relevance to this case.

The State's Attorney received direction at the June 20, 2013, County Board meeting. The County Board is now free to take action on this case without regard to that court case.

BACKGROUND

The following is a brief review of the background to this case:

- A. This case is related to Case 688-S-11 which was a request for a Special Use Permit to establish a Restricted Landing Area with limited helicopter use on land that is currently zoned CR Conservation Recreation Zoning District but that was proposed to be rezoned to the AG-1 Agriculture Zoning District in Section 27 of Crittenden Township.
- B. On a vote of 5 to 1 the Zoning Board of Appeals (ZBA) voted to "NOT RECOMMEND ENACTMENT (DENY)" of this map amendment at their April 25, 2013, meeting.
 - The ZBA found that the proposed map amendment will "NOT HELP ACHIEVE" the Champaign County Land Resource Management Plan and is <u>not consistent</u> with the *LaSalle* and *Sinclair* factors. The Summary Finding of Fact is attached.
- C. At a Special Meeting held on May 1, 2013, the Zoning Board of Appeals (ZBA) voted 4 to 1 (with one member absent) to "DENY" the Special Use Permit (Restricted Landing Area) requested in related Case 688-S-11.

Case 687-AM-11

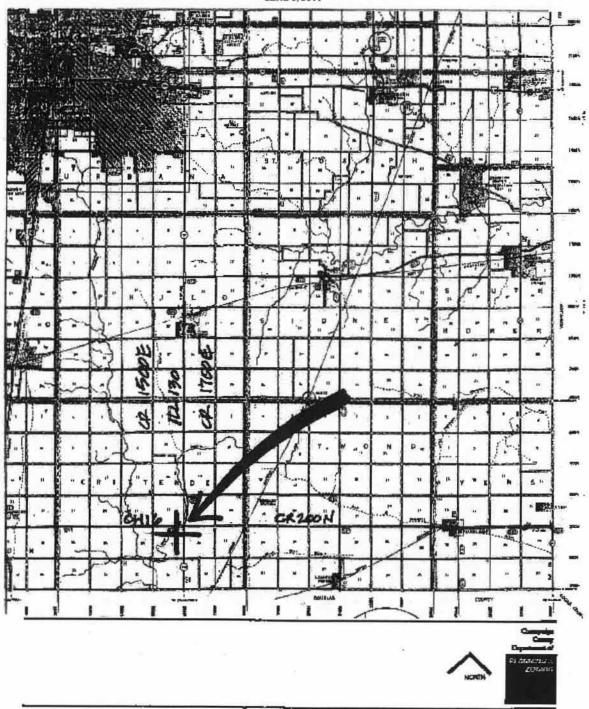

Dr. Phillip and Sarabeth Jones Rezoning CR to AG-1 JULY 8, 2013

- D. This case has caused a lot of turmoil with some (but not all) neighbors in the area. A petition of opposition was submitted at the August 11, 2011, public hearing signed by 33 households (later reduced to 32) in opposition to the proposed rezoning. The petition stated that the signers wanted to protect the existing neighborhoods in the area; preserve the property values; protect the wildlife, farm, and domestic animals; preserve the scenic value; and protect the safety and welfare of the homeowners.
- E. In the past the Petitioner has voluntarily provided his helicopter and airplane for public safety uses and the rezoning and special use permit will make it more convenient for the Petitioner. Letters of support for the proposed RLA were received from both Dan Walsh, Champaign County Sheriff, and Charlie McGrew, Douglas County Sheriff, and Bill Keller, former Champaign County Emergency Management Director. None of those letters suggested anything about the various zoning issues related to impact on the immediate neighborhood but each letter makes clear that having both the fixed wing (airplane) and helicopter assets conveniently available could be very valuable and an additional public safety benefit to both counties.

SUMMARY FINDING OF FACT

From the documents of record and the testimony and exhibits received at the public hearing conducted on June 16, 2011, August 11, 2011, November 10, 2011, May 31, 2012, August 16, 2012, December 13, 2012, March 14, 2013, and April 25, 2013, the Zoning Board of Appeals of Champaign County finds that:

- The proposed amendment will **NOT HELP ACHIEVE** the Land Resource Management Plan because of the following (objectives and policies are very briefly summarized):
 - A. The proposed amendment will **NOT HELP ACHIEVE Goal 4 Agriculture** because of the following:
 - It will NOT HELP ACHIEVE Objective 4.1 requiring minimization of the fragmentation of farmland, conservation of farmland, and stringent development standards on best prime farmland because the only relevant policies are the following:
 - It will HELP ACHIEVE Policy 4.1.1 requiring that other land uses only be accommodated under very restricted conditions or in areas of less productive soils (see Item 14.A.(2)).
 - It DOES NOT conform to Policy 4.1.6 requiring that the use, design, site
 and location are consistent with policies regarding suitability, adequacy of
 infrastructure and public services, conflict with agriculture, conversion of
 farmland, and disturbance of natural areas (see Item 14.A.(3)).
 - It will HELP ACHIEVE Objective 4.2 requiring discretionary development to not interfere with agriculture because it will HELP ACHIEVE all of the subsidiary policies under 4.2.
 - It will NOT HELP ACHIEVE Objective 4.3 requiring any discretionary development to be on a suitable site because it will NOT HELP ACHIEVE the following:
 - It will NOT HELP ACHIEVE Policy 4.3.1 requiring on other than best prime farmland that County may authorize a discretionary review development if the site is suited overall (see Item 14.C.(1)).

And will HELP ACHIEVE the following:

- Policy 4.3.3 requiring existing public services be adequate to support the proposed development effectively and safely without undue public expense (see Item 14.C.(3)).
- Policy 4.3.4 requiring existing public infrastructure be adequate to support the proposed development effectively and safely without undue public expense (see Item 14.C.(4)).

- B. The proposed amendment will **NOT HELP ACHIEVE Goal 8 Natural Resources** because while it will either not impede or is not relevant to the other Objectives and Policies under this goal, it will **NOT HELP ACHIEVE** the following:
 - Objective 8.5 requiring the County to encourage the maintenance and enhancement of aquatic and riparian habitats because while it will either not impede or is not relevant to the other Objectives and Policies under this goal it, will NOT HELP ACHIEVE the following:
 - Policy 8.5.1 requiring discretionary development to preserve existing habitat, enhance degraded habitat and restore habitat (see Item 18.A.(2)).
 - Policy 8.5.2 requiring discretionary development to cause no more than minimal disturbance to the stream corridor environment (see Item 18.A.(3)).
 - Objective 8.6 that avoids loss or degradation of habitat because it will NOT HELP ACHIEVE the following:
 - Policy 8.6.2 requiring new development to minimize the disturbance of habitat or to mitigate unavoidable disturbance of habitat (see Item 18.B.(2)).

And will HELP ACHIEVE the following:

- Policy 8.6.3 requiring the County to use credible sources of information to identify priority areas for protection, restoration, preservation or enhancement (see Item 18.B.(3)).
- Policy 8.6.4 requiring implementation of IDNR recommendations for discretionary development sites that contain endangered or threatened species (see Item 18.B.(4)).
- C. The proposed amendment will HELP ACHIEVE Goal 10 Cultural Amenities because while it will either not impede or is not relevant to the other Objectives and Policies under this goal, it will HELP ACHIEVE the following:
 - Objective 10.1 requiring the development and maintenance of cultural, educational, recreational, and other amenities that contribute to the quality of life because while it will either not impede or is not relevant to the other Objectives and Policies under this goal it, will HELP ACHIEVE the following:
 - Policy 10.1.1 requiring the County to work to identify historic structures, places and landscapes (see Item 20.A.(1)).
- D. The proposed amendment will **NOT IMPEDE** the following LRMP goal(s):
 - Goal 6 Public Health and Safety
 - Goal 7 Transportation
- E. The proposed amendment is **NOT RELEVANT** to the following LRMP goal(s):
 - Goal 1 Planning and Public Involvement
 - Goal 2 Governmental Coordination
 - Goal 3 Prosperity
 - Goal 5 Urban Land Use

Goal 9 Energy Conservation

- 2. The proposed Zoning Ordinance map amendment **IS NOT** consistent with the *LaSalle* and *Sinclair* factors because of the following:
 - There have been conflicting reports on the effect of neighboring property values and no formal study has been conducted regarding property values.
 - The proposed use could not be established without the proposed map amendment.
 - The subject property is SUITABLE for the current zoned uses and is NOT SUITABLE for the proposed Special Use Permit.
 - The proposed map amendment, on the basis of the proposed Special Use Permit, is INCOMPATIBLE with the existing uses and zoning of nearby property.
 - There IS a need and demand for the use.
 - The proposed use DOES NOT CONFORM to the Champaign County Land Resource Management Plan.
- The proposed Zoning Ordinance map amendment will {HELP ACHIEVE / PREVENT ACHIEVEMENT OF} the purpose of the Zoning Ordinance because:
 - The proposed map amendment on the basis of the proposed Special Use Permit is either fully consistent with or will not impede the achievement of 10 of the 18 Purpose statements.
 - The proposed map amendment on the basis of the proposed Special Use Permit DOES secure adequate light, pure air, and safety from fire and other dangers (Purpose 2.0 (a) see Item 23.A.).
 - The proposed map amendment on the basis of the proposed Special Use Permit {DOES / DOES NOT} conserve the value of land, BUILDINGS, and STRUCTURES throughout the COUNTY (Purpose 2.0 (b) see Item 23.B.).
 - The proposed map amendment on the basis of the proposed Special Use Permit DOES NOT promote the public health, safety, comfort, morals, and general welfare (Purpose 2.0 (e) see Item 23.E.).
 - The proposed map amendment on the basis of the proposed Special Use Permit DOES NOT protect natural features such as forested areas and watercourses (Purpose 2.0 (o) see Item 23.O.).
 - The proposed map amendment on the basis of the proposed Special Use Permit DOES
 NOT do the following:
 - it adequately restricts the location of trades and industries and the location of BUILDINGS, STRUCTURES, and land designed for specified land USES; and
 - it is consistent with the existing division of the COUNTY into DISTRICTS and different classes according to the USE of land, BUILDINGS, and STRUCTURES,

- intensity of the USE of LOT AREA, and other classification as may be deemed best suited to carry out the purpose of the ordinance; and
- it is consistent with the regulations and standards to which BUILDINGS, STRUCTURES, or USES therein shall conform; and
- it is consistent in its prohibition on USES, BUILDINGS, OR STRUCTURES incompatible with the character of such DISTRICT. (Purposes 2.0 (i) (j.) (k) and (l); see Items 23.I., J., K. and L).

RESOLUTION NO. 8504 RESOLUTION DENYING PETITION TO AMEND THE ZONING ORDINANCE BY RECLASSIFYING CERTAIN PROPERTY

687-AM-11

WHEREAS, the Champaign County Zoning Board of Appeals (Board of Appeals) held a public hearing, made a formal recommendation for denial, and forwarded to this Board Zoning Case Number 687-AM-11 which is for the purpose of establishing a Restricted Landing Area pursuant to related Zoning Case 688-S-11;

WHEREAS, the Board of Appeals also held a public hearing for related Zoning Case Number 688-S-11 for a proposed Restricted Landing Area as a special use to the Champaign County Zoning Ordinance on the same property and determined that the proposed Restricted Landing Area is not in harmony with the purpose of the Zoning Ordinance and denied the proposed special use permit for the Restricted Landing Area;

WHEREAS, the Board of Appeals did not make a separate and distinct finding in Case 687-AM-11 regarding whether the proposed map amendment will help achieve the overall purpose of the Zoning Ordinance but did find in regard to several individual purpose statements of the Zoning Ordinance that on the basis of the record presented at the public hearing in Case 687-AM-11, the proposed map amendment:

- a. does not promote the public health, safety, morals, and general welfare; and
- does not protect the natural features of the CR District such as forested areas and watercourses; and
- c. does not adequately restrict the location of land designed for specific uses; and
- d. is not consistent with the existing division of the County into districts and different classes according to use of land, buildings, structures, intensity of use, and other classification as may be deemed best suited to carry out the purpose of the Ordinance; and
- e. is not consistent with the regulations and standards to which uses shall conform; and
- f. is not consistent with the existing prohibition on uses incompatible with the character of such district;

WHEREAS, the Environment and Land Use Committee of the Champaign County Board resolved to refer this case with recommendation of denial and to recommend the adoption of the record and Findings of the Board of Appeals in Case 687-AM-11 and to recommend an additional Finding that the Zoning Map amendment will not help achieve the purpose of the Zoning Ordinance overall;

WHEREAS, the Champaign County Board, after reviewing the case record of the Board of Appeals in Case Number 687-AM-11, hereby adopts the record and findings of the Board of Appeals in that case and makes the additional finding that the Zoning Ordinance map amendment will not help achieve the purpose of the Zoning Ordinance overall;

WHEREAS, the Champaign County Board believes it is for the best interests of the County and for the public good and welfare to not amend the Champaign County Zoning Ordinance as petitioned and to retain the present zoning of the petition site;

NOW, THEREFORE, BE IT RESOLVED, by the Champaign County Board, Champaign County, Illinois, that the present CR Conservation Recreation Zoning District be retained without reclassification on the following described real estate:

Part of the Northeast Quarter of Section 27, Township 17 North, Range 9 East of the Third Principal Meridian located in Champaign County, Illinois, being more particularly described as follows:

Commence at the Northeast corner of Said Section 27, said corner being marked by a found monument; thence with the East line of said Section 27, South 00 36' 50" East – 1,3280.00 feet to the Point Of Beginning; thence continue with said East line, South 00 36' 50" East – 256.65 feet; thence leaving said East line, South 89 03' 10" West – 2,215.00 feet; thence North 00 36' 50" West 256.65 feet; thence North 89 03' 10" East – 665.00 feet; thence North 00 36' 50" West – 179.35 feet; thence North 89 03' 10" East – 150.00 feet; thence South 00 36' 50" East – 179.35 feet; thence North 89 03' 10" East – 1,400 feet to the Point Of Beginning containing 13.67 Acres more or less.

RE: Zoning Ordinance Variance Case 749-V-13

Request: Authorize a County Board Variance from Subsection 13.2.1A.4.

that requires construction or use to comply with the SUBDIVISION regulations of a municipality when the

requirement for annexation to that municipality is pursuant to or is a requirement for plat approval by that municipality, for a proposed expansion of a water treatment plant and related facilities that are owned and operated by a predominately rural

water district in the AG-2 District.

Petitioner: Sangamon Valley Public Water District

STATUS

On a vote of 5 to 0 (with one member absent) the Zoning Board of Appeals (ZBA) voted to "RECOMMEND APPROVAL" of this variance at their June 27, 2013, meeting.

This is related to the recent Zoning Case involving the construction of a new water treatment plant for the Sangamon Valley Public Water District near Mahomet.

The County Board amended the Zoning Ordinance to allow this type of variance at the June 20, 2013, meeting by the adoption of Ordinance No. 926 (Case 743-AT-13).

This variance will allow the Sangamon Valley Public Water District to receive a Zoning Use Permit for construction of the new water treatment plant without seeking subdivision approval and annexation from the Village of Mahomet. The Village is free to pursue enforcement of its subdivision regulations.

The ZBA recommended three special conditions of approval for the variance. See the brief discussion below.

SPECIAL CONDITIONS OF APPROVAL

The ZBA included the following special conditions of approval for the variance:

A. The approval of Case 749-V-13 shall not confer County Board approval or support for violation of the technical platting requirements of the Village of Mahomet subdivision ordinance.

The above special condition is required to ensure the following:

To ensure compliance with the Zoning Ordinance requirements.

Case 749-V-13 Sangamon Valley Public Water District JULY 8, 2013

B. The Zoning Administrator shall provide notice to the Village of Mahomet of the final determination for Case 749-V-13 and copies of any related Zoning Use Permit or Zoning Compliance Certificate that are authorized.

The above special condition is required to ensure the following:

To ensure compliance with the Zoning Ordinance requirements.

C. The Zoning Administrator shall not issue a Zoning Compliance Certificate until a plat of subdivision for the subject property has been received that meets the requirements of 13.2.1A.4.(1)(a).

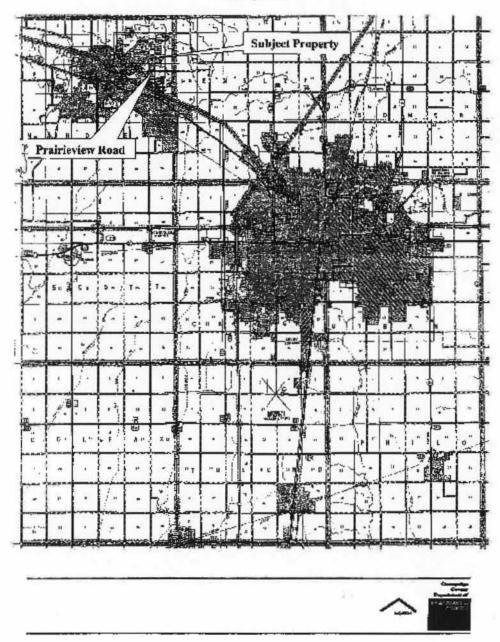

The above special condition is required to ensure the following:

To ensure compliance with the Zoning Ordinance requirements.

Attachment C. Findings of Fact Case 749-V-13 July 8, 2013

FINDINGS OF FACT

From the documents of record and the testimony and exhibits received at the public hearing for zoning case 749-V-13 held on June 27, 2013, the Zoning Board of Appeals of Champaign County finds that:

- Special conditions and circumstances DO exist which are peculiar to the land or structure involved, which are not applicable to other similarly situated land and structures elsewhere in the same district because:
 - The predominantly rural public water district property is contiguous with the Village of Mahomet corporate limits.
 - The predominately rural public water district expansion is contiguous to the existing plant.
 - The proposed expansion is necessary for the public health, safety, and well-being of the residents of the predominately rural water district.
- Practical difficulties or hardships created by carrying out the strict letter of the regulations sought to be varied WILL prevent reasonable or otherwise permitted use of the land or structure or construction because:
 - Compliance with the Village of Mahomet subdivision regulations would result in annexation and could result in the dissolution of the predominately rural water district.
- The special conditions, circumstances, hardships, or practical difficulties DO NOT result from actions of the applicant because:
 - It is a long term existing facility needing upgrades because of population growth within the district.
 - Sangamon Valley Public Water District's previous attempts to comply with the Village of Mahomet subdivision regulations without annexation have failed.
 - Sangamon Valley Public Water District has shown the intent to follow the technical municipal platting requirements.
- 4. The requested variance **SUBJECT TO THE PROPOSED CONDITIONS IS** in harmony with the general purpose and intent of the Ordinance because:
 - The proposed expansion is contiguous with the existing facility and is well suited for municipal development.
 - The proposed expansion will fill a need for a growing community.

Attachment C. Findings of Fact Case 749-V-13 July 8, 2013

- The small area used by the proposed expansion will minimize the loss of existing farmland.
- The proposed expansion is in conformance with the Area General Plan.
- 5. The requested variance SUBJECT TO THE PROPOSED CONDITIONS WILL NOT be injurious to the neighborhood or otherwise detrimental to the public health, safety, or welfare because:
 - The proposed expansion improves the health, safety, and welfare of district residents.
 - We have received no comments or concerns from the fire protection district or the relevant highway authority.
- The requested variance SUBJECT TO THE PROPOSED CONDITIONS IS the minimum variation that will make possible the reasonable use of the land/structure.
- 7. THE SPECIAL CONDITIONS IMPOSED HEREIN ARE REQUIRED FOR THE PARTICULAR PURPOSES DESCRIBED BELOW:
 - A. The approval of Case 749-V-13 shall not confer County Board approval or support for violation of the technical platting requirements of the Village of Mahomet subdivision ordinance.

The above special condition is required to ensure the following:

To ensure compliance with the Zoning Ordinance requirements.

B. The Zoning Administrator shall provide notice to the Village of Mahomet of the final determination for Case 749-V-13 and copies of any related Zoning Use Permit or Zoning Compliance Certificate that are authorized.

The above special condition is required to ensure the following:

To ensure compliance with the Zoning Ordinance requirements.

C. The Zoning Administrator shall not issue a Zoning Compliance Certificate until a plat of subdivision for the subject property has been received that meets the requirements of 13.2.1A.4.(1)(a).

The above special condition is required to ensure the following:

To ensure compliance with the Zoning Ordinance requirements.

RESOLUTION NO. 8534 RESOLUTION GRANTING A VARIANCE ZONING CASE NO. 749-V-13

WHEREAS, the Champaign County Zoning Board of Appeals held a public hearing, made a formal recommendation for approval, and forwarded to this Board Case Number 749-V-13;

WHEREAS, the Champaign County Board finds that the Zoning Board of Appeals followed proper procedures and its Finding of Fact is supported by the manifest weight of evidence cited in the Summary of Evidence; and

WHEREAS, the Finding of Fact forwarded by the Zoning Board of Appeals demonstrates compliance of the petition in Zoning Case 749-V-13 with the criteria contained in Section 9.1.9 C. of the *Champaign County Zoning Ordinance*.

NOW, THEREFORE BE IT RESOLVED, by the Champaign County Board, Champaign County, Illinois, as follows:

- That the Summary of Evidence, Documents of Record, Finding of Fact, and Final
 Determination forwarded by the Champaign County Zoning Board of Appeals in Zoning
 Case 749-V-13 are hereby endorsed and adopted, and incorporated herein by reference.
- 2. That a Variance is hereby granted to Sangamon Valley Public Water District from the requirements of Subsection 13.2.1A.4. of the Zoning Ordinance, that requires construction or use to comply with the SUBDIVISION regulations of a municipality when the requirement for annexation to that municipality is pursuant to or is a requirement for plat approval by that municipality, for a proposed expansion of a water treatment plant and related facilities that are owned and operated by a predominately rural water district in the AG-2 District, on the property located at 709 North Prairieview Road, Mahomet.
- 3. That the grant of Variance in Case 749-V-13 includes the following special conditions:
 - A. The approval of Case 749-V-13 shall not confer County Board approval or support for violation of the technical platting requirements of the Village of Mahomet subdivision ordinance.
 - B. The Zoning Administrator shall provide notice to the Village of Mahomet of the final determination for Case 749-V-13 and copies of any related Zoning Use Permit or Zoning Compliance Certificate that are authorized.

C. The Zoning Administrator shall not issue a Zoning Compliance Certificate until a plat of subdivision for the subject property has been received that meets the requirements of 13.2.1A.4.(1)(a).
