## **OFFICE OF THE CHAMPAIGN COUNTY EXECUTIVE**

1776 East Washington Street, Urbana, Illinois 61802-4581

**Darlene A. Kloeppel, County Executive**

TO: Honorable Members of the Champaign County Board  
FROM: Isak Griffiths, Deputy Director of Administration  
DATE: October 21, 2019  
RE: Biennial EEO-4 Survey and Result

Every two years, Champaign County is required to report race and gender workforce information to the EEOC (Equal Employment Opportunity Commission). As mandated by federal requirements, each functional area with more than 100 employees is given a separate report; a single summary report is submitted that combines all functions with fewer than 100 employees.

For the 2019 survey, Champaign County submitted the following reports:

1. Financial Administration
2. Public Welfare
3. Corrections
4. Summary of Other Functions (Including Streets & Highways, Police Protection, Health and Mental Health, Community Development, Animal Control, Recorder and Zoning functions, GIS, and Emergency Management)

The attached reports contain staffing information from June 30, 2019, along with comparative information from previous submission years. Because the sale of the nursing home significantly impacted the County's staffing statistics, the overall county data is compared using two different sets of data: (1) the actual staffing as of June 30, which highlights the impact on demographics due to the sale of the nursing home, and (2) the hiring statistics for the year ending June 30, 2019 which, although is not a direct apples-to-apples comparison, provides anecdotal demonstration that the County's overall hiring trends reported in 2018 continue.

For the non-nursing home EEO functional areas, only the June 30, 2019 comparisons are presented because the loss of the nursing home did not have a significant impact.

A few noteworthy points:

- Per EEOC instructions, the data excludes elected officials.
- The percentage of black females employed full-time by the county change from 17.67% to 10.91%; this is largely due to the loss of the demographics represented by nursing home employees.

(217) 384-3776

[WWW.CO.CHAMPAIGN.IL.US](http://WWW.CO.CHAMPAIGN.IL.US)

(217) 384-3896 FAX

- As of June 30, the percent of black employees was slightly above the Champaign County average; the percent of white employees was higher than the county population average, and the percent of other ethnicities as a whole was lower but increasing. (Note: not all black employees are African American.)
- Excluding the nursing home, the trend for the EEO functional areas each show that the percentage of non-white employees continues to increase slowly over time.
- Without the nursing home, the County now employs a smaller percent of the population (.35% to .29%).
- The county does not have a representative employee base of Asian or indigenous American populations. In general, the county is employing a higher percent than in previous years, but this category continues to be low.
- Even without the nursing home, the County employs significantly more women than men (62.9%).
- 56.7% of County employees earn below the 2017 Median household income.
- The largest numbers of lower wage earners are women in administrative support, para professional, and technical positions. The higher wage earners are largely concentrated in professional and protection services roles. The largest block of earners is women in the middle:

	under 33k	33k to 54k	55k +
Female	132	171	82
Male	15	93	119

- The census baseline continues to be the 2010 census data to avoid skewing the trend line comparisons. According to [factfinder.census.gov](https://factfinder.census.gov), Champaign County is currently estimated to be closer to 72.7% white and 13.1% black or African American. At 80.56% and 14.38%, the county employees a higher percentage of both than the county population average.
- The source of the population numbers used in previous EEO reports to the County Board could not be located, nor could the numbers be replicated. Therefore, the population counts for Champaign County since 2010 have been updated to reflect the population numbers in <https://factfinder.census.gov>. These numbers have been confirmed with GIS.

As of June 30, 2019 the workforce of Champaign County Government was made up of the following representative race and gender groups.

Financial Administration	186	FTE	FTE (Full Time Employees)
Public Welfare	168	FTE	
Nursing Home	0	FTE	
Corrections	137	FTE	
All Other	121	FTE
