Champaign County strives to provide an environment welcoming to all persons regardless of disabilities, race, gender, or religion. Please call 217-384-3776 to request special accommodations at least 2 business days in advance.

CHAMPAIGN COUNTY PHYSICAL PLANT

1776 EAST WASHINGTON STREET, URBANA, ILLINOIS 61802-4581

FACILITIES & GROUNDS MANAGEMENT SERVICES

Alan Reinhart, Facilities Director

Physical Plant Overview

The Physical Plant Division is responsible for 18 county-owned buildings with an area totaling 790,436 sq ft.

| Type of Support | Building |
|----------------------------------|---|
| Daily | Courthouse |
| On call after hours | Sheriff's Office / Downtown Jail |
| | Adult Detention Facility on Lierman |
| | Brookens Administration Center |
| | ILEAS Training Center |
| | Juvenile Detention Facility |
| | Emergency Management Building |
| Weekly | Highway Fleet Maintenance Building |
| | Coroner's Office |
| | Animal Services Facility |
| As needed On call after hours | Nursing Home (has own in-house maintenance staff) |
| Occasional | Several out-buildings storing equipment & records |

<u>Staff</u>

The Physical Plant employees consist of 3 different divisions, Custodians, Grounds and Maintenance. All three divisions interact and support each other as needed.

Custodians

The Custodians, 10.5 full-time equivalents, provide a safe, clean and comfortable work environment for County employees and tenants/visitors of the buildings. The Courthouse and Brookens Administration buildings are staffed with 7.5-hour employees, and the Sheriff's Office, ILEAS, Emergency Management Agency, Juvenile Detention Facility, Adult Detention Facility and Highway Departments are taken care of by 4-hour employees. Two of the Custodians working in the Brookens building are classified as Custodian/Mail Service, where they have assigned custodial responsibilities and process mail to be picked up by a carrier service in the afternoon.

<u>Grounds</u>

There is one full-time employee that works in the Grounds Division. With the recent retirement of other grounds employees, we have adjusted our work force to utilize seasonal help. During the growing season, we will hire 2-3 seasonal grounds workers to assist with mowing, trimming and ground care of approximately 50 acres. During the winter months, we use additional temporary employees as needed for snow and ice removal of parking lots and sidewalks.

Maintenance

The Maintenance Division is responsible for maintaining County buildings and performing major and minor remodeling projects. Additionally, they maintain files for all leases of County property and maintenance service contracts. There are 9 full-time maintenance employees, classified in 3 categories.

The **Maintenance Workers** are usually entry level employees. These employees are typically assigned to a specific building to support the users and maintain the building and equipment on a daily basis.

The **Senior Maintenance employees** are more skilled with the county buildings, equipment and systems. They support the Maintenance Workers and will also be assigned specific projects as needed.

The **Skilled Trades employees** are licensed in a trade or have specialized training such as certification in HVAC, refrigeration, building automation system/climate controls, etc. Their responsibility is support of all the Maintenance and Senior Maintenance workers, major repairs of all building/equipment and special assigned projects.

Seasonal Overview

The busiest season of the year for the Physical Plant is during the spring when all of the air-conditioning systems must be cleaned and prepared for the start of the cooling season. As most of the buildings are climate controlled, this takes several days to weeks depending on the building size. This includes cleaning all of the cooling coils, checking the control operations and repairing leaks or faults that have occurred over the winter. Each of the systems must have a test run before they can be put on-line. Once the systems are on-line, calibration of controls and thermostats must occur to fine tune each individual area. This whole process is usually repeated during mid-summer to make sure the systems are operating to their maximum efficiency during the hottest time of the year.

During late summer or fall, it is time to prepare for heating operation. There are 5 steam boilers that have to be completely drained, disassembled and cleaned for inspection by certified inspectors every two years. They are sequenced so that 2-3 are opened up per year. Once they pass inspection, they have to be reassembled, filled and test fired to verify correct operation. If the inspector finds a problem, then they have to be repaired and re-inspected before they can be reassembled. Once the boilers are ready to go on-line, we calibrate the controls and thermostats to start them up and heat the buildings.

Each individual building has a different set of parameters for spring and fall start up. Some buildings have a large central heating and cooling plant or package roof top units in multiple locations with different sizes or a combination of the two.

Additional Responsibilities

Physical Plant staff all work together to assist each other with the annual certification process that is required for many different pieces of equipment. Annual inspections of all elevators, anti-siphoning backflow devices, fire alarm systems and components, and over 150 fire extinguishers all require access by certification inspectors who generally have no idea of where they are going or how to get there. We also provide communication between the inspectors and the building occupants when there are controlled outages or alarms to try to minimize the disruption.

Additional work is requested daily from the various departments throughout the County. All of these requests are assigned to our individuals through a computerized work order system in addition to their daily assigned duties. These requests can then be prioritized, assigned by building or location and scheduled as needed. The requests can range from something as simple as a stuck or locked desk drawer, to a tripped breaker or a request to move office furniture and files to a different location.

Physical Plant Monthly Expenditure Report

November, 2012 FY2012

| EXPENDITURE ITEM | FY10/11 YTD 11/30/2011 | FY10/11 ACTUAL | FY10/11 as % of Actual | FY11/12 ORIGINAL BUDGET | FY11/12 BUDGET 11/30/2012 | FY11/12 YTD 11/30/2012 | FY11/12 as % of Budget | FY11/12 Remaining Balance |

CHAMPAIGN COUNTY PHYSICAL PLANT 1776 East Washington Street, Urbana, Illinois 61802-4581

FACILITIES & GROUNDS MANAGEMENT SERVICES

Alan Reinhart, Facilities Director

MEMORANDUM

| DATE: | January 2, 2013 |
|-------|---|
| то: | Stan James, Chair County Facilities Committee |
| FROM: | Alan Reinhart, Facilities Director |
| RE: | Sheriff Office/Correctional Facilities Improvements |

During September 2012, the County Board approved funding for the following building improvements to be completed by the end of the fiscal year, if possible. Five separate small projects were funded:

| PROJECT | CONTRACTOR | VALUE | STATUS |
|--|--------------------------|----------|---|
| Roof Maintenance & Repair (South Office Section) | Nogle & Black Roofing | \$21,116 | Completed |
| Masonry Repair (Upper Parapet) | R.D. Cox Masonry | \$21,500 | 70% Complete – delayed due to weather. Will take 3 days to complete project |
| Shower Stall Sheeting (Selective Stalls) | Roessler Construction | \$22,100 | Material Purchased - work begins 1/7 |
| Dayroom Painting (Selective Dayrooms) | Roessler Construction | \$4,580 | 65% Complete – 2 isolation dayrooms left - Should be done by January |
| Corridor Security Lock Replacements | Physical Plant | \$4,202 | All locks purchased – County staff will install the retrofit locks over next several months |
