## Replace tile from Open ditch back to I-57

## Project impact

Locally:

- Ensure that the approximately 300 Plus residents on the west side of down do not have flooding issues

- Help prevent Pesotum from having issues like we recently saw in Gibson City

- Improve Road stability and and culverts from being over run and failing

- Improve safety for our community and those driving on our roads

When surface water is not controlled

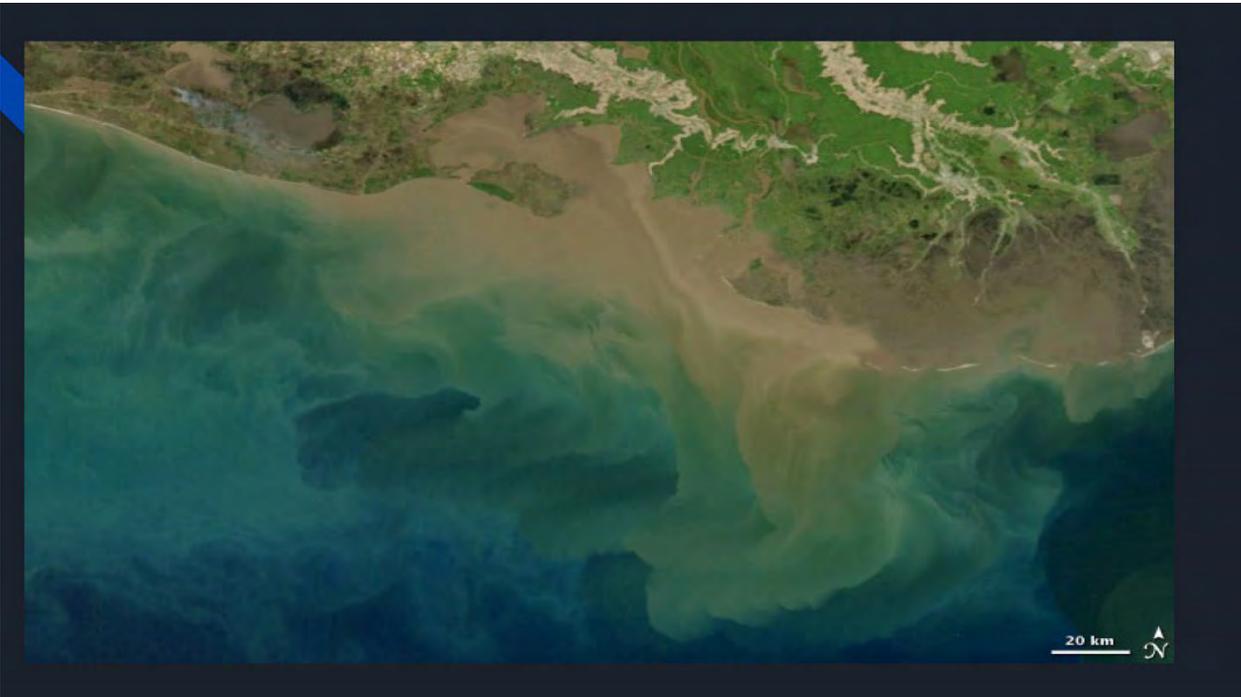

## Project Impact

### Globally

- Help protect the health and safety of ground water
- Help reduce amount of nitrates getting into the water stream and making it down to the Gulf
- Reduce sediments in water - this will help reduce ditches filling up between our drainage district all the way to the Gulf of Mexico.

## Pesotum Drainage District

- Help Protect the \$120,000 investment we made in drainage and tile work that Drains the west side of Pesotum
- Reduce the financial drain on our resources we see by repairing these tiles.
- Up-date our main tiles to the correct size and functionality needed for today's demands
- Demands are changing with 1 in 500 year events become more like 1 in 25 year events

## Drainage is a Utility

We believe that drainage in Southern Champaign county should be looked at no differently than having utilities available to landowners and residents of the village of pesotum.

## Request

We would like to request cost share funding for the 8,185 feet of tile that need replaced.

Over all cost is \$362,967.61

Would like to receive a minimum of \$181,483.80 - This would fund half of the project

We are prepared to work with the courts to levy funding for the other half of the project if you choose to help fund this project

Thank you for your time and consideration of this project to help us improve the infrastructure of the drainage in southern Champaign county.
