STATUS

This is the second meeting for this case. It was continued from the January 15, 2009, ZBA meeting. At that meeting the petitioners indicated they had some changes they wanted to make to the site plan and staff had asked for some additional information as well.

The revised site plan was received on January 23, 2009, and indicated a parking area as well as one clearly indicated driveway entrance. The primary driveway entrance was not clearly indicated on the site plan and an annotated site plan which indicates the entrance is attached. The revised site plan does not indicate any new construction on the west side of the property as previously indicated, but does indicate a new proposed greenhouse attached to the north side of the retail/office space building.

Staff has measured the visibility triangles of all the driveway entrances on the subject property and the only significant visual obstruction is the existing sign for the business. The petitioners have proposed to move the sign and have indicated the new location (well outside any visibility triangle) on the revised site plan. Also, a special condition requiring the relocation of the sign is proposed.

Staff has also communicated with the Urbana Township Highway Commissioner, Jim Prather, who indicated that he did not have any problems with the safety of Country Arbors driveway entrances. He did mention a problem with the bushes located on the small residential property that is located at the southeast corner of the subject property.

NEW EVIDENCE FOR SUMMARY OF EVIDENCE

1. The following should be added as new Item 5.C. on page 3 of 16, as follows:

- C. A revised site plan was received on January 23, 2009, which indicates the following changes from the previous site plan:
- (1) The greenhouse structure on the west side of the property is no longer included.
 - (2) The location of the old sign is indicated, near the primary driveway entrance.

-
- (3) A location for a new sign is indicated, and the petitioner's have indicated to staff that this sign is intended to replace the existing sign, not to be in addition.
 - (4) A new Future Greenhouse is indicated as being attached to the north end of the existing Retail/Office space building.
 - (5) The Parking area is clearly indicated, but the driveway used to get to that parking area is not clearly indicated.
 - (6) An easement over the small residential lot at the southeast corner of the subject property and driveway entrance to the subject property are indicated as well.

2. The following should be added as new Item 8.C.(4) on page 6 of 16, as follows:

- (4) Jim Prather, Urbana Township Highway Commissioner, in a phone conversation on January 22, 2009, with J.R. Knight, Associate Planner, indicated that he did not have any issues with the safety of Country Arbors Nursery driveway entrances.

3. The following should be added as new Item 12. on page 12 of 16, as follows:

12. Staff has measured the visibility triangles at the driveway entrances to the subject property and the only significant visual obstruction they found was the existing sign at the primary entrance to the subject property. The petitioners have proposed to move the existing sign, as indicated on their revised site plan. The following condition makes this a requirement of the Special Use Permit:

The petitioners shall relocate the existing Country Arbors Nursery sign as indicated on the revised site plan received on January 23, 2009.

The above special condition is necessary to ensure the following:

Visibility is not impaired at the primary entrance to the subject property.

Petitioners: **Casey's Retail Company
and Henri Merkelo**

**Request: Amend the Zoning Map to
change the zoning district designation
from the R-5 Manufactured Home
Park Zoning District to the B-4
General Business Zoning District.**

Site Area: **approx. 1.04 acres**

Time Schedule for Development:
Immediate

**Location: A 1.04 acre tract in the
Southwest Quarter of the Southwest
Quarter of the Southwest Quarter of
Section 10 of Urbana Township and
commonly known as the vacant house
at 2218 East University Avenue,
Urbana.**

BACKGROUND

Staff was first contacted by the City of Urbana regarding the proposed rezoning. The petitioners had contacted the City about annexation and rezoning of the property to allow the proposed use, but the City staff proposed that it was more appropriate for the rezoning to occur in the County's jurisdiction. This would allow the neighbors, who are also residents of the County zoning jurisdiction to indicate any concerns to their appropriate representatives.

The subject property is an approximately 1.04 acre tract at the intersection of Smith Road and University Avenue in Urbana. It is currently zoned R-5 and contains a vacant dwelling. In order for Casey's General Stores to operate at the proposed location it will require rezoning to the B-4 General Business District.

EXISTING LAND USE AND ZONING

Table 1 summarizes the land use and zoning on the subject property and adjacent to it.

**Table 1. Land Use and Zoning In The
Vicinity Of The Subject Property**

Direction	Land Use	Zoning
Onsite	Vacant Dwelling	R-5 MANUFACTURED HOME Park; proposed to be changed to B-4 General Business
North	MANUFACTURED HOME park	R-5 MANUFACTURED HOME Park
East	Edge-Scott Fire Protection District station	R-1 Single Family Dwelling
West	MANUFACTURED HOME park	B-2 Neighborhood Business
South	T-shirt business	I-1 Light Industry

CONSIDERATIONS IN MAP AMENDMENTS

In addition to the relevant goals and policies, the following concerns are also standard considerations in any rural map amendment.

- **Street Access**
- **Traffic Conditions**
- **Natural Resource Report**
- **Flood Prone Area Designation**
- **Drainage Conditions**
- **Availability of Water and Sanitary Sewer**
- **Fire Protection**
- **Area, Height, & Placement Regulations**

POLICIES & GOALS WITHOUT CLEAR CONFORMANCE

The Draft Finding of Fact includes staff recommendation regarding the degree of conformance or achievement of certain policies and goals when the conformance or achievement is very clear. However, no evidence has been submitted regarding the County Engineer's approval of a new driveway for the proposed use. There is no clear conformance to policies and goals related to street access.

Policies and Goals Requiring Specific Determinations Regarding Compatibility of Use

- Policy 3.6 of the Land Use Goals and Policies (FOF Item 10.E. on page 9 of 18) is as follows:

The County Board will strongly discourage proposals for new commercial development not making adequate provisions for drainage and other site considerations.
- Policy 2.2 of the Land Use Goals and Policies (FOF Item 11.B. on page 11 of 18) is as follows:

The Environment and Land Use Committee will work with municipal plan commissions to review existing zoning patterns and regulations within urban areas and initiate proposals to encourage development and redevelopment of "in-town" areas.
- The third commercial land use goal (FOF Item 12.C. on page 12 of 18) is as follows:

Commercial areas designed to promote compatibility with non-commercial uses and at the same time provide ease of access.
- The third general land use goal (FOF Item 15.B on page 14 of 18) is as follows:

Land uses appropriately located in terms of:
 - i. utilities, public facilities,
 - ii. site characteristics, and
 - iii. public services.

PROPOSED SPECIAL CONDITIONS OF APPROVAL

A. The subject property is proposed to access US 150, and a permit from IDOT is required. The following condition makes it clear that no Zoning Use Permit can be granted for the subject property without a permit from IDOT approving access to the subject property:

- (1) **The Zoning Administrator shall not approve a Zoning Use Permit on the subject property unless the Zoning Use Permit Application includes a copy of the Illinois Department of Transportation approval for the same driveway access, site plan (if relevant), and proposed use that is submitted with the Zoning Use Permit Application, in addition to all other requirements for a Zoning Use Permit application.**
- (2) **The Zoning Administrator shall not issue a Zoning Compliance Certificate unless a copy of the approved "as built" driveway access approval by the Illinois Department of Transportation is provided, in addition to all other requirements.**

The special condition stated above is necessary to ensure the following:

The proposed use conforms to the traffic requirements of the relevant highway jurisdiction.

B. The site plan indicates a canopy over the gasoline pumps, which will presumably be lighted and an artist's rendering of the proposed principal building seems to include what could be lights on the sides of the building. There are residential uses located adjacent to the subject property that could be impacted by night lighting of the subject property. The following condition requires the same standards for outdoor lighting as is required of all Special Use Permits:

The proposed use shall meet the outdoor lighting requirements of Subsection 6.1.1.D. of the Zoning Ordinance.

The special condition stated above is required to ensure the following:

The proposed rezoning does not create a nuisance due to night lighting of the subject property.

PRELIMINARY DRAFT

611-AM-08

**FINDING OF FACT
AND FINAL DETERMINATION
of**

Champaign County Zoning Board of Appeals

Final Determination: ***{RECOMMEND ENACTMENT/RECOMMEND DENIAL}***

Date: January 29, 2009

Petitioners: Casey's Retail Company and Henri Merkelo

Request: Amend the Zoning Map to change the zoning district designation from the R-5
Manufactured Home Park Zoning District to the B-4 General Business Zoning District

FINDING OF FACT

From the documents of record and the testimony and exhibits received at the public hearing conducted on **January 29, 2009**; the Zoning Board of Appeals of Champaign County finds that:

1. Co-petitioner Casey's Retail Company is the contract purchaser of the subject property, and co-petitioner Henri Merkelo is the owner of the subject property.
2. The subject property is a 1.04 acre tract in the Southwest Quarter of the Southwest Quarter of the Southwest Quarter of Section 10 of Urbana Township and commonly known as the vacant house at 2218 East University Avenue, Urbana.
3. The subject property is located within the one and one-half mile extraterritorial jurisdiction of the City of Urbana. Municipalities with zoning have protest rights on all rezonings and they are notified of such cases. Due to staff error, notification was sent to the City of Urbana and nearby property owners only nine days before the public hearing, instead of the 15 days required by the *Zoning Ordinance* and the ZBA by-laws.
4. Regarding comments by petitioners, when asked on the petition what error in the present Ordinance is to be corrected by the proposed change, the petitioner has indicated:

“Property will be used as Commercial. It is currently Residential.”
5. Regarding comments by the petitioner when asked on the petition what other circumstances justify the amendment the petitioner has indicated:

“The use of the land will be Commercial. It is currently Residential.”

PRELIMINARY DRAFT

GENERALLY REGARDING LAND USE AND ZONING IN THE IMMEDIATE VICINITY

6. Land use and zoning on the subject property and in the vicinity is as follows:
 - A. The subject property is currently zoned R-5 MANUFACTURED HOME Park, and is a single family dwelling, but is not currently in use.
 - B. Land to the north of the subject property is zoned R-5 MANUFACTURED HOME Park, and is in use as part of a MANUFACTURED HOME park.
 - C. Land to the south of the subject property is zoned I-1 Light Industrial, and is in use as a t-shirt making business.
 - D. Land to the east of the subject property is zoned R-1 Single Family Dwelling, and is in use as the Edge-Scott Fire Protection District Station, which was authorized by Zoning Case 482-S-83.
 - E. Land to the west of the subject property is zoned B-2 Neighborhood Business, and is in use as public facilities for the MANUFACTURED HOME park.

GENERALLY REGARDING THE EXISTING AND PROPOSED ZONING DISTRICTS

7. Regarding the existing and proposed zoning districts:
 - A. Regarding the general intent of zoning districts (capitalized words are defined in the Ordinance) as described in Section 5 of the Ordinance:
 - (1) The R-5, Manufactured Home Park DISTRICT is intended to accommodate MANUFACTURED HOME PARKS and their associated USES in a medium density housing environment.
 - (2) The B-4, General Business DISTRICT is intended to accommodate a range of commercial USES and is intended for application only adjacent to the urbanized areas of the COUNTY.
 - B. Regarding the general locations of the existing and proposed zoning districts:
 - (1) The R-5 MANUFACTURED HOME Park Zoning District appears to have been established wherever there were existing MANUFACTURED HOME Parks in the County and since the adoption of the *Zoning Ordinance* the District has not been expanded except in case 562-AM-06.
 - (2) There is no easy generalization to describe where the B-4 General Business Zoning District was originally established except to say that with a few large exceptions it does not occur very often outside of the fringe of urbanized areas. There has been a trend in recent years to change B-3 zoned areas to B-4.
 - C. Regarding the different uses that are authorized in the existing and proposed zoning districts by Section 5.2 of the Ordinance:

ITEM 7.C. CONTINUED

- (1) There are 13 different types of uses authorized by right in the R-5 District and there are 114 different types of uses authorized by right in the B-4 District:
 - (a) The following nine uses are authorized by-right in both districts:
 - Subdivisions totaling three lots or less;
 - Subdivisions totaling more than three lots;
 - Agriculture;
 - Institution of an Educational, Philanthropic, or Eleemosynary Nature;

GENERALLY REGARDING WHETHER THE SUBJECT PROPERTY IS WITHIN A MUNICIPAL ETJ AREA

8. The subject property is located within the one and one-half mile extraterritorial jurisdiction (ETJ) of the City of Urbana. Based on the proposed use, after the subject property is rezoned it will be required to obtain a sewer permit, which will also require an annexation agreement with the City.

REGARDING CHAMPAIGN COUNTY LAND USE GOALS AND POLICIES

9. The Land Use Goals and Policies were adopted on November 29, 1977, and were the only guidance for County Map Amendments until the Land Use Regulatory Policies-Rural Districts (LURP) were adopted on November 20, 2001, as part of the Rural Districts Phase of the Comprehensive Zoning Review (CZR). The LURP's were amended September 22, 2005, but the amendment contradicts the current Zoning Ordinance and cannot be used in concert with the current Zoning Ordinance. The LURP's adopted on November 20, 2001, remain the relevant LURP's for discretionary approvals (such as map amendments) under the current Zoning Ordinance. The relationship of the Land Use Goals and Policies to the relevant LURP's is as follows:
 - A. Land Use Regulatory Policy 0.1.1 gives the Land Use Regulatory Policies dominance over the earlier Land Use Goals and Policies.
 - B. The Land Use Goals and Policies cannot be directly compared to the Land Use Regulatory Policies because the two sets of policies are so different. Some of the Land Use Regulatory Policies relate to specific types of land uses and relate to a particular chapter in the land use goals and policies and some of the Land Use Regulatory Policies relate to overall considerations and are similar to general land use goals and policies.

GENERALLY REGARDING POLICIES FOR COMMERCIAL LAND USE

10. There are seven commercial land use policies in the Land Use Goals and Policies, and two utilities policies (7.3 and 7.3a) which are relevant, as follows:

A. Four of the seven commercial land use policies are not relevant to any given rezoning, as follows:

(1) Policy 3.2 of the Land Use Goals and Policies states that the County Board will establish, by amendment to the Zoning Ordinance or other means, a process for reviewing petitions for new commercial land to include a determination of the need for new commercial development based on market demand.

(2) Policy 3.3 of the Land Use Goals and Policies states that the Environment and Land Use Committee will examine the Zoning Ordinance to institute more flexible commercial development controls such as planned unit development and transfer of development rights in order to provide a wider variety of commercial development techniques and better compatibility with non-commercial uses.

(3) Policy 3.7 of the Land Use Goals and Policies states that the County Board will strongly discourage proposals for new commercial development along arterial streets and highways if the proposals contribute to the establishment or maintenance of a strip commercial pattern. As an alternative, concentrated or nodal patterns of development may be considered when there is adequate provision for safe, controlled access to the arterial streets and highways.

B. Policy 3.1 of the Land Use Goals and Policies states that the County Board will encourage only those new commercial developments which are found to be needed to serve the demands of the residents of Champaign County and its trade area.

The proposed rezoning appears to **CONFORM** to Policy 3.1 because co-petitioner Casey's Retail Company plans to close their current location at 2108 East University Avenue, Urbana, which is three lots west of the subject property, and the proposed use in this case will replace the existing Casey's store.

C. Regarding the adequacy of utilities and fire protection at the subject property for the proposed map amendment:

(1) The following policies relate to adequacy of utilities and fire protection:

(a) Policy 3.4 of the Land Use Goals and Policies states that the County Board will not encourage major new commercial development except in those areas where sewer, water, adequate fire protection and other utilities are readily available.

(b) Policy 7.3 states that the County Board will encourage development only in areas where both sewer and water systems are available. In areas without public sewer and water systems, development may occur only if it is determined that individual septic systems can be installed and maintained in a manner which will not cause contamination of aquifers and groundwater and will not cause health hazards.

PRELIMINARY DRAFT

ITEM 10.C.(1)(B) CONTINUED

Requests for development should demonstrate that wastewater disposal systems, water supply, fire and police protection are adequate to meet the needs of the proposed development.

- (c) Policy 7.3A states that new subdivisions and zoning changes should meet these (7.3 above) standards and will be considered where they are not in conflict with the goals and policies of this Plan.
- (2) Regarding the availability of a connected public water supply system water:
- (a) According to the proposed Site Plan an existing six-inch water main runs down the west side of Smith Road, across US 150 and then turns right to run along the south side of US 150.
 - (b) The Site Plan also indicates a proposed two-inch water service line that will connect to the existing water main on the south side of US 150, and connect to the water meter in the proposed Casey's store.
 - (c) In regards to the availability of an adequate water supply system, the proposed map amendment **CONFORMS** because the subject property is proposed to use an existing public water supply system.
- (3) Regarding the availability of a connected public sanitary sewer system for the subject property:
- (a) The Site Plan indicates an existing public sanitary sewer line runs along the east side of Smith Road, and another line runs along the south side of US 150.
 - (b) The Site Plan also indicates that the co-petitioner Casey's Retail Company plans to obtain a 10 foot wide easement across the parking lot of the Edge-Scott Fire Protection District Station to connect to the sewer line on the east side of Smith Road.
 - (c) A letter from Kelly Read, Real Estate/Store Development Administrator, received on October 21, 2008, indicates that Casey's has resolved their sewer easement with the Edge-Scott Fire Protection District.
 - (d) In regards to the availability of an onsite wastewater disposal system, the proposed map amendment **CONFORMS** because the subject property is proposed to use an existing connected public sanitary sewer system.
- (4) Regarding the adequacy of fire protection at this location for the proposed map amendment:

ITEM 10.C.(4) CONTINUED

- (a) The subject property is located within the response area of the Edge-Scott Fire Protection District, and is located adjacent to the fire protection district station. The Fire District chief has been notified of this request but no comments have been received. The notice to the Fire District chief was sent out late with the other notices for this case.
- (b) In regards to adequate fire protection, the proposed map amendment appears to **CONFORM** to Policy 3.4 because there have been no concerns raised by the Edge-Scott Fire Protection District, and the subject property is located adjacent to the fire protection district station.
- (5) There is no evidence to suggest that there will be any demand for gas or electric utilities beyond what is normal for a typical use in this area; therefore, there should be no problems or costs to the public.
- (6) The proposed rezoning appears to **CONFORM** overall with Policies 3.4, 7.3, and 7.3A.
- D. Policy 3.5 of the Land Use Goals and Policies states that the County Board will not encourage major new commercial developments except in those areas which can be adequately served by public mass transit.

The proposed rezoning **CONFORMS** to Policy 3.5 because the subject property is served by the 7 Grey bus route of the Champaign-Urbana Mass Transit District, and it is near the 5 Green bus route.
- E. Policy 3.6 of the Land Use Goals and Policies states that the County Board will strongly discourage proposals for new commercial development not making adequate provisions for drainage and other site considerations.

The proposed rezoning **{CONFORMS/DOES NOT CONFORM}** to Policy 3.6 based on the following:

- (1) Any future construction on this property will have to meet the requirements of the *Zoning Ordinance* and the *Stormwater Management Policy*.
- (2) The Site Plan does not indicate anything regarding drainage. However, Bob Buchanan, Vegrzyn, Sarver, & Assoc. (VSA), in a phone conversation with J.R. Knight, Associate Planner, on January 22, 2009, indicated that VSA was designing an underground stormwater drainage system that would meet the City of Urbana's drainage requirements.
- (3) The proposed use is a commercial enterprise that is bordered on the north by a dwelling that conforms to use, and on the west by a dwelling that does not conform to use because it is located in a business district. Regarding compatibility with the two dwellings:

PRELIMINARY DRAFT

ITEM 10.E. CONTINUED

- (a) As a business the proposed use will generate noise from many sources: vehicular traffic, customers, and commercial air conditioning and refrigeration equipment. It is expected that this noise could continue to some degree for 24 hours per day if the business ever goes to a 24-hour schedule.
- (b) A typical commercial use generates much more traffic than a dwelling. However, the proposed use will access US 150, a federal highway which carries 14,500 Average Daily Trips already. The main impact from increased traffic on neighboring properties will be the noise caused by vehicles entering and leaving the property.
- (c) The *Zoning Ordinance* requires that lots that are zoned residential be screened from parking areas and loading berths. The Ordinance also requires that major streets and lots zoned residential be screened from outdoor storage. Neither parking areas nor outdoor storage are required to be screened from commercial buildings. There is no screening indicated on the site plan and screening will be required.
- (d) The Board may wish to consider a vegetative screen along the entire north property line to increase the buffering provided to the residential property to the north.
- (e) The Site Plan for the proposed use includes a canopy, which will presumably be lighted at night. To prevent light from the proposed use from trespassing onto the neighboring residential uses, a special condition is proposed that will require the proposed use to conform to the standard condition for lighting that applies to all Special Use Permits. Generally the standard condition requires full-cutoff lighting fixtures of the lowest possible wattage.
- (f) The Dumpster/Recycle area indicated on the Site Plan constitutes outdoor storage, which is required to be 10 feet from any side lot line. The Site Plan indicates the Dumpster/Recycle area is only eight feet, six inches from the west lot line. The dumpster area will either have to be moved one foot, six inches to the east or the petitioners will have to obtain a variance from the side yard requirement.

REGARDING POLICIES FOR RESIDENTIAL LAND USE

- 11. There are seven residential land use policies in the Land Use Goals and Policies, which are relevant, as follows:
 - A. Four of the seven residential land use policies do not appear to be relevant to the proposed rezoning, as follows:

ITEM 11.A. CONTINUED

- (1) Policy 2.1 of the Land Use Goals and Policies states that the Environment and Land Use Committee, in cooperation with municipal plan commissions, will examine current provisions of zoning and subdivision ordinances for the purposes of increasing the flexibility of regulations to encourage a greater range of site designs and housing types.
- (2) Policy 2.4 of the Land Use Goals and Policies states that the Environment and Land Use Committee will examine undeveloped areas zoned residential to determine probability of development within the period covered by this Plan and the Committee will undertake study of possible alternative uses of the land.
- (3) Policy 2.5 of the Land Use Goals and Policies states that the Zoning Board of Appeals, the Environment and Land Use Committee and the County Board will only support the development of residential areas separated from incompatible non-residential uses, unless natural or man-made buffering is provided.

Despite this policy not strictly applying to the proposed rezoning it does underscore the importance of providing buffering between commercial and residential uses.

- (4) Policy 2.7 of the Land Use Goals and Policies states that where housing of greater density than one or two-family units is planned, the Zoning Board of Appeals and the Environment and Land Use Committee and the County Board will encourage the provision of underground or under-building parking to provide the maximum amount of useable open space around the building.
- B. Policy 2.2 of the Land Use Goals and Policies states that the Environment and Land Use Committee will work with municipal plan commissions to review existing zoning patterns and regulations within urban areas and initiate proposals to encourage development and redevelopment of “in-town” areas.

The proposed rezoning *{CONFORMS/DOES NOT CONFORM}* to Policy 2.2 because of the following:

- (1) The subject property is located in a developed area, less than 200 feet from the City of Urbana corporate limits, and the proposed rezoning will allow for the redevelopment of a vacant property.
 - (2) The proposed use will replace the existing Casey’s General Store location three lots to the west of the subject property. There is no indication at this time whether there is a plan for the old store location or whether it will remain vacant.
- C. Residential policies relevant to the adequacy of water, sewer, and other utilities are as follows:
- (1) Policy 2.3 of the Land Use Goals and Policies states that the County Board will encourage new residential development in areas where public or private sewer and water utility systems are, or easily can be, provided and where police and fire protection are available. The County Board will permit new residential development in areas without

PRELIMINARY DRAFT

ITEM 11.C.(1) CONTINUED

access to public sewer and water utilities only if it can be determined that the use of individual septic systems will not cause contamination of aquifer and groundwater and will not cause health hazards.

- (2) Policy 2.3A states that new subdivisions and zoning changes should meet these (2.3 above) standards and will be considered where they are not in conflict with the goals and policies of this Plan.
- (3) The proposed rezoning **CONFORMS** to Policies 2.3 and 2.3A to the same degree as it conforms to Policies 3.4, 7.3, and 7.3A (See Item 10.D., above).

- D. Policy 2.6 of the Land Use Goals and Policies states that the County Board will work for the maintenance of sound housing and the improvement, replacement or elimination of deteriorating housing in the County.

The proposed rezoning **CONFORMS** to Policy 2.2 because the existing house on the subject property has been vacant for several years and the proposed rezoning will allow a business already existing in the area to upgrade its operations.

REGARDING GOALS FOR COMMERCIAL LAND USES

- 12. The commercial land use goals are relevant because the subject property is proposed to be changed to the B-4 DISTRICT. There are four commercial land use goals as follows:

- A. The first and fourth land use goals do not appear to be relevant to any given rezoning, as follows:
 - (1) The first commercial land use goal is provision of a sufficient amount of land designated for various types of commercial land use to serve the needs of the residents of the County.
 - (2) The fourth commercial land use goal is establishment of development procedures to promote appropriate justification for new commercial development.

- B. The second commercial land use goal is as follows:

Location of commercial uses:

- i. within ready accessibility to sewer, water and other utilities as well as adequate streets and highways.
- ii. Adequate public transit will also be considered.

Overall, the proposed rezoning **ACHIEVES** this goal based on the following:

- (1) In regards to accessibility of sewer, water, and other utilities Policy 3.4, Policy 7.3, and Policy 7.3A (see Item 10D.), the proposed rezoning **ACHIEVES** this goal.
- (2) In regards to adequate streets and highways, the proposed rezoning **ACHIEVES** the second commercial land use goal based on the following:

ITEM 12.B.(2) CONTINUED

- (a) There is no traffic impact analysis provided for this case.
 - (b) US 150 is a federal highway maintained by IDOT approximately 45 feet wide where the subject property accesses the road.
 - (c) The co-petitioner, Casey's Retail Company, has begun the permitting process with IDOT. Josh Lowry, IDOT Permits Technician, in a phone conversation with J.R. Knight, Associate Planner, on January 22, 2009, indicated they did not see any problems with Casey's permit in their preliminary review.
- (3) In regards to adequate public transit, the proposed rezoning **ACHIEVES** the second commercial land use goal because the subject property is located on the 7 Grey bus route of the Champaign-Urbana Mass Transit District and near the 5 Green bus route. However, as a Gasoline Service Station it is unlikely that the majority of customers coming to this use would be using a bus.

C. The third commercial land use goal is as follows:

Commercial areas designed to promote compatibility with non-commercial uses and at the same time provide ease of access.

This goal *{WILL/WILL NOT}* be achieved by the proposed rezoning, based on the following:

- (1) In regards to compatibility with non-commercial uses, the proposed map amendment *{ACHIEVES/DOES NOT ACHIEVE}* this goal based on conformance with Policy 3.6 (See Item 10.E.(3) for specific discussion of compatibility).
- (2) In regards to ease of access the proposed map amendment **ACHIEVES** this goal because the subject property has access to US 150.

REGARDING GOALS FOR RESIDENTIAL LAND USES

13. There are three goals for residential land use in the Land Use Goals and Policies. All three are not relevant to this map amendment. The three goals are as follows:
- A. Residential neighborhoods which provide adequate housing to meet the needs of future residents of Champaign County, adequate recreation and open space, access to utilities, access to commercial and employment centers and other community support services.
 - B. An ample supply of housing with a variety of types and cost levels to meet the demand of Champaign County residents for the planning period, and to accommodate the needs of families of various sizes and with various occupations and incomes both for permanent and transient residents.

PRELIMINARY DRAFT

ITEM 13. CONTINUED

- C. Residential development procedures which will promote the production of an adequate housing supply in a manner compatible with the goals and policies of this Land Use Plan.

REGARDING GENERAL LAND USE POLICIES

- 14. There are two general land use policies in the Land Use Goals and Policies, as follows:

- A. The second land use policy is not relevant to any specific map amendment, as follows:

The County Board, the Environmental and Land Use Committee and the Board of Appeals will establish communication and coordination processes among local units of government in order to address and resolve similar or overlapping development problems.

- B. The first general land use policy is as follows:

The County Board, the Environmental and Land Use Committee and the Zoning Board of Appeals will follow the policies of:

- i. encouraging new development in and near urban and village centers to preserve agricultural land and open space;
- ii. optimizing the use of water, sewer, and public transportation facilities; and reducing the need for extending road improvements and other public services.

Based on the review of the relevant commercial land use policies and goals, the proposed map amendment **CONFORMS** to this policy as follows:

- (1) **CONFORMS** in regards to preserving agricultural land and open space because the proposed rezoning will result in the re-development of a vacant residential property located in an urban area.
- (2) **CONFORMS** in regards to optimizing the use of water, sewer, and public transportation facilities and other public services based on the following:
 - (a) Regarding water and sewer, the subject property is proposed to use existing public water and sanitary sewer facilities.
 - (b) Regarding public transportation, the subject property will be served by the Champaign-Urbana Mass Transit District, which has existing bus routes in that serve the subject property (See Item 12.B.(3) above).
 - (c) **CONFORMS** in regards to reducing the need for extending road improvements, because the subject property is located on a Federal Highway that already handles a large amount of traffic.

REGARDING GENERAL LAND USE GOALS

15. There are five general land use goals for all land use in the Land Use Goals and Policies, as follows:
- A. Three of the general land use goals are not relevant to the proposed map amendment for the following reasons:
 - (1) The first and fifth general land use goals are not relevant to any specific map amendment.
 - (2) The second general land use goal is so generally stated that it is difficult to evaluate the degree of achievement by the proposed rezoning.

- B. The third general land use goal is as follows:

Land uses appropriately located in terms of:

- i. utilities, public facilities,
- ii. site characteristics, and
- iii. public services.

Overall the proposed map amendment **ACHIEVES** the third general land use goal, based on the following:

- (1) In regards to utilities, based on the review of the relevant policies: Policy 3.4, Policy 7.3, Policy 7.3A (see item 10.C.), and the first general land use policy (see item 14.B.) the proposed map amendment **ACHIEVES** this goal.
- (2) Regarding road improvements, the proposed map amendment **ACHIEVES** the third general land use goal because the subject property is located on a federal highway.
- (3) Regarding site characteristics, the proposed map amendment **{ACHIEVES/DOES NOT ACHIEVE}** this goal based on conformance with Policy 3.6 and the third commercial land use goal (See Item 12.C. and 10.E.(3) for specific discussion of compatibility issues).

- C. The fourth general land use goal is as follows:

Arrangement of land use patterns designed to promote mutual compatibility.

Overall the fourth general land use goal **{WILL/WILL NOT}** be achieved by the proposed rezoning based on conformance or achievement of the preceding policies and goals.

GENERALLY REGARDING PROPOSED SPECIAL CONDITIONS OF APPROVAL

16. Regarding proposed special conditions of approval:
- A. The subject property is proposed to access US 150, and a permit from IDOT is required. The following condition makes it clear that no Zoning Use Permit can be granted for the subject property without a permit from IDOT approving access to the subject property:

PRELIMINARY DRAFT

ITEM 16.A. CONTINUED

- (1) **The Zoning Administrator shall not approve a Zoning Use Permit on the subject property unless the Zoning Use Permit Application includes a copy of the Illinois Department of Transportation approval for the same driveway access, site plan (if relevant), and proposed use that is submitted with the Zoning Use Permit Application, in addition to all other requirements for a Zoning Use Permit application.**
- (2) **The Zoning Administrator shall not issue a Zoning Compliance Certificate unless a copy of the approved “as built” driveway access approval by the Illinois Department of Transportation is provided, in addition to all other requirements.**

The special condition stated above is necessary to ensure the following:

The proposed use conforms to the traffic requirements of the relevant highway jurisdiction.

- B. The site plan indicates a canopy over the gasoline pumps, which will presumably be lighted and an artist’s rendering of the proposed principal building seems to include what could be lights on the sides of the building. There are residential uses located adjacent to the subject property that could be impacted by night lighting of the subject property. The following condition requires the same standards for outdoor lighting as is required of all Special Use Permits:

The proposed use shall meet the outdoor lighting requirements of Subsection 6.1.1.D. of the Zoning Ordinance.

The special condition stated above is required to ensure the following:

The proposed rezoning does not create a nuisance due to night lighting of the subject property.
