- V. Local incidents, training, exercises and upcoming events discussion
  1. Midwest Hazmat Conference update. Brian Ball attended with four personnel. This was hosted virtually which was executed well. Multiple workshops including HAZMAT Safety Officer and a course on new HAZMAT threats. Training also included new equipment familiarization.

2. May 11<sup>th</sup> Pesotum Train derailment. The situation looked significantly worse than in reality. The teams did an excellent job handling the situation, and our community is lucky that there was not a significant HAZMAT release.
3. IAFC Whole Community Planning for Disaster course-07/22/21 at ILEAS. Free to attend. Link is out online. We have a few signups, but please encourage those that qualify and are available to attend the training.

VI. Open Discussion and Wrap up

1. John and Collin toured the Decon Trailer at the Corteva Production location in St Joseph. It is a resource for our County if needed as a backup or as an additional resource.
2. From Brian Ball: On 28 May there was a chlorine release. Mismanagement of this chlorine led to a small situation. Small diesel release at a distribution center on June 28, 2021. No more chemical warfare detector on the HAZMAT team. Please contact Lieutenant Brian Ball if you have more questions about the incidents.
3. Adjournment-Next Meeting - September 29<sup>th</sup>, 2021
