## Advocate Biographies

**Eric Beasley:** My name is Eric Beasley. I grew up in Clark County in Midwest Illinois. I went through elementary and high school in my small town and moved to Champaign in 2012. I moved here because I was looking for better jobs and opportunities and just needed a change. I have been working at Home Depot for the past 10 years. I know everyone there, including a lot of repeat customers. Outside of work, I am starting a Manga Club and hoping to get to know other people who like Manga so that we can draw and read together, kind of like a book club. I like being part of the Human Rights and Advocacy group because I have a voice that needs to be heard. PS. I'm really bad at remembering names, so forgive me on that.

**Jen Buoy:** My name is Jen Buoy. I grew up in Champaign and have lived here all my life with my parents. Right now I am in a duplex with my mom. I volunteer with PACE where I help with mailings, sorting, answering the phone, and making phone calls. I also volunteer at the Virginia Theatre. I enjoy exercising and being in my church choir and in advocacy groups with PACE, Community Choices, and NAMI. I value the freedom of religion and when people follow the golden rule - treating others how you'd like to be treated.

**Tobie Wood:** My name is Tobie Wood. I grew up in rural Champaign County. I live with my parents on a farm. Farming is my current occupation. I like the freedom that farming gives me, as long as you pay your bills. In my free time, I like to travel in the US and internationally. I like to meet people from different races, cultures, and backgrounds and to try international foods. Some things that are really important to me are people being kind, showing respect to others, and being open-minded. I live by the golden rule, treat others how you wish to be treated.

**Theodora:** Theodora is a vibrant and outgoing woman who currently lives in Urbana and is working toward her goal of living in her own apartment one day. She thrives on connecting with others and enjoys spending time with friends and family, going out to eat, and participating in community activities.

An active volunteer and dedicated worker, Theodora brings energy and enthusiasm to everything she does. She loves bowling, attending self-advocacy events, and being a voice for herself and others. Known for her great sense of humor, fun personality, and strong problem-solving skills, she is passionate about making a difference and living life to the fullest.

**Danielle:** Danielle is a passionate self-advocate who lives in her own apartment. Her faith plays a central role in her life, and she is an active member of her church. Danielle is known for her kindness, loyalty, and respectful nature. She maintains a strong network of friends who value her caring spirit and insight she provides through a wealth of lived experience.

Danielle works at a local movie theater, where she enjoys being part of a team and engaging with the public. In her free time, Danielle loves reading, going to camp every year, watching TV, going to church events, traveling, spending time with friends and family, and attending advocacy events.

## Advocate Survey Summary

When discussing with CC and DSC advocates what to share with the DDB/MHB this year, advocates decided to create a survey rather than only responding with their own experiences. The survey was distributed to advocates and members from both organizations. The survey focused on identifying what is going well and where there are challenges in the following areas: Health, Work, Transportation, Recreation/Leisure, Housing, and Advocacy. Several responses were submitted. Advocates met to discuss common themes in the responses. Advocates will present the survey results for what is working well and what could be better in regard to these six areas. The advocates will also be open to answering questions from board members after their presentation.

Sharon Costabile  
Manager  
Engage IL

## Biography

With over 30 years of business experience as the co-founder of Get Fresh Produce, a long-standing track record in real estate sales, and a graduate of Partners in Policymaking (2025), Sharon brings C-suite management and organizational expertise, sales acumen, real estate investment knowledge, and a deep personal commitment to system efficiency to all her business endeavors.

As a mother of three dynamic women—one with a disability—Sharon’s efforts are currently focused on transforming Illinois’ disability service system, empowering families to create innovative housing solutions, and working in all areas to facilitate equity and choice for individuals with disabilities in Illinois.

### Empowering Families Through Housing Innovation

In 2021, with the help of their support team, Sharon led the establishment of a successful, family-managed, 24/7 supported living home “model” for three women with disabilities.

In 2023, with the help of her team, the Creative Housing Network was established. A strategic planning summit spearheaded by this network of families and individuals with disabilities was held in May of 2024 in Springfield, IL. The **Engage IL Coalition** was a direct outcome of this summit. In addition, the key stakeholders in the Developmental Disability system, participants of the summit, identified goals to advance a person-centered system based on national best practice for sustainable, community-based supported living opportunities and full, meaningful lives for individuals with developmental disabilities in Illinois.

### Leading Systemic Change in Illinois

In 2025, this tenacious group of families secured an infrastructure grant from the Coleman Foundation to establish a unified voice for individuals with disabilities and their families. The Engage IL Coalition is fiscally sponsored by TotalLink to Community, a 501c3 organization serving the same population. The mission established during the Springfield summit: To drive Illinois toward a person-centered service system based on national best practices with the ability to amplify the voices of those directly impacted, to identify critical gaps in the system, and to efficiently address equity, choice, and community living for all with systemic change.

Our Vision

# INDIVIDUALS WITH DISABILITIES DESIGNING LIVES IN THE COMMUNITY OF THEIR CHOICE

A coalition of individuals with disabilities, their families, and allies

## Our Mission

# UNITING INDIVIDUALS AND FAMILY VOICES FOR EQUITY, DIGNITY AND CHOICE

A coalition of individuals with disabilities, their families, and allies

# A LITTLE HISTORY

---

- Federal Government developed institutions to educate people with IDD to become 'productive' members of society.
- Over the years, institutions shifted from educational schools to custodial settings
- Functioned as locations of care and medical practice rather than education. And here is where IL got stuck.

# ILLINOIS IN THE RANKS

---

## Illinois ranks very poorly in supporting folks to live in the community

- Disproportionate amount of allocated dollars go to 'brick and mortar' and not services in the community.
- Illinois has seven state-run institutions. Most states have none.
- Institutions are the default placement in Illinois when there is no other option.

# CONTINUUM OF FUNDING MODELS

for equity, dignity and choice

# FEDERALLY FUNDED MODELS

---

## Institutions - SODC

- State Operated Developmental Centers
- Est annual cost: \$350K per person

## ICF-DD (Intermediate Care Facility for Developmentally Disabled)

- Est annual cost: \$150K per person

# WAIVER PROGRAMS

## CILA (Community Integrated Living Arrangement)

- Established in 1981, the model hasn't changed in 40 years.
- Needs based but **not person centered**
- Group homes run by licensed providers
- Est annual cost: \$80 - 125K
- CILA providers are not accepting individuals with high medical or behavioral needs.

## Home Based Program

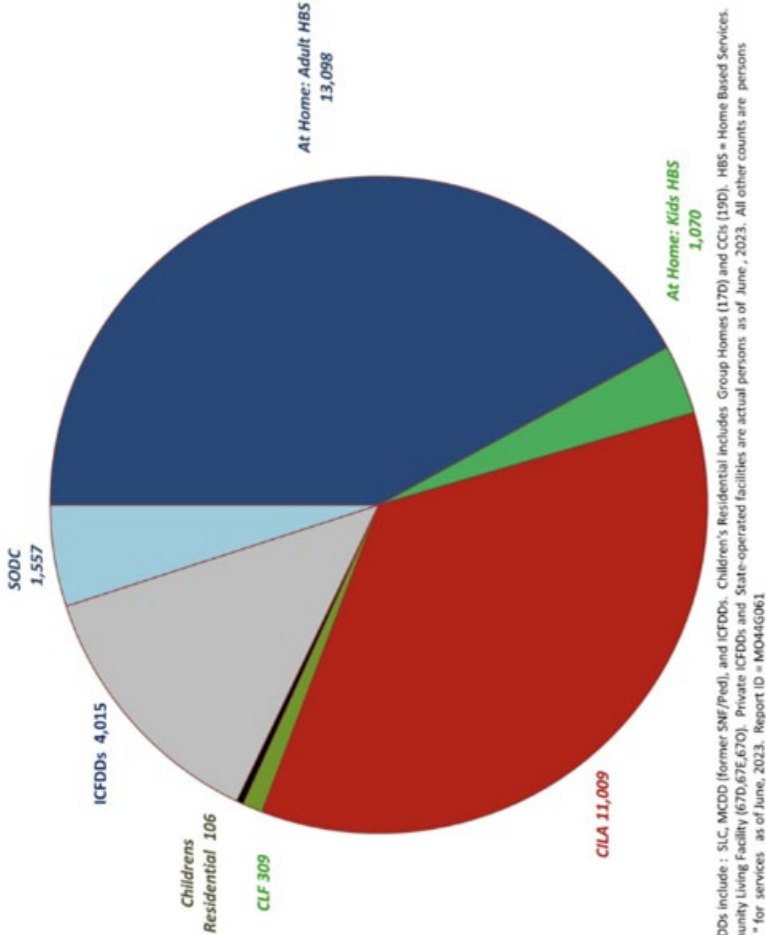

- Stipend 3 times x Social Security \$34K/year
- **Intended** to provide funds to keep loved one at home until moving into CILA
- Not sufficient funds to create a person-centered self directed life.
- Over 80% of individuals are choosing Home-Based by **default** due to no other flexible options available.

# MORE PROGRESSIVE MODEL: SUPPORTED LIVING

- More cost-effective than all other models
- Better outcomes from self-directed, person-centered services
- Based on need, including those who have high medical and mental health needs.
- National best practice
- Robust case management
- Sustainable

Uniting individuals and family voices  
for equity, dignity and choice

# STRONG PARENT VOICE NEEDED

---

Currently, the strongest unified voices oppose moving away from institutional and congregate living models, which is the most expensive option for the State.

**We need to advocate with louder voices for community -based models that yield evidence -based, positive outcomes.**

# WE NEED A NEW STRONG FAMILY VOICE IN SPRINGFIELD REPRESENTING THE DEMAND FOR BETTER COMMUNITY BASED OPTIONS.
